

Durable Shut Off Vacuum Valve Milk Flow Indicator For 25mm Tube

Our Product Introduction

for more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Certification: ISO
- Model Number: HL-G23
- Minimum Order Quantity: 1 unit
- Price: USD\$31 per unit
- Packaging Details: Carton
- Delivery Time: 7-10 days
- Payment Terms: T/T, Western Union, MoneyGram, Paypal
- Supply Ability: 200 units per month

Product Specification

- Name: Flow Indicator
- Function: Controlling Vacuum During Milking
- Animal: Dairy Cow
- Highlight: milk flow meter, fullwood milk meters

Product Description

shut-off vacuum valve, milk flow indicator for 25mm tube , vacuum cut off valve

It reduces vacuum levels at the beginning and end of milking to protect the tissues of the teat end. By limiting exposure to over-vacuum, the teat opening remains healthy, sealing tightly after milking. This is key to reducing mastitis. Since cows usually lie down after milking, it is essential that the teat opening closes properly in order to reduce the risk of bacteria entering the teat canal.

Model	HL-G23
Name	Flow Indicator
Type	
Function	controlling vacuum during milking
Animal	dairy cow
