Product Description

Cow Farm Equipment Magnetic Trap 75*19mm 0.12KG Strong magnetic cage

Product Description:

In the process of raising cattle, due to the negligence of the farmers, causing cows to eat the wire. Then the cow's stomach was cut, bring some losses to the cattle farm. What if the cow eats the wire? First, the stomach metal detector was used to detect the presence of iron wire in the stomach of cattle. Then iron is removed with a cow stomach iron remover or a magnetic cage is placed in the cow stomach, to prevent the wire from stabbing the cow in the stomach.
