Product Description

Calf Farm Equipment Calf Puller Midwifery Cow Obstetric Apparatus SS304 180*60*13cm

Product Description:

Midwifery equipment is widely used in the cattle breeding industry. Its main function is to quickly pull the calf out of the mother, thereby reducing the suffocation problem of the calf in the mother for a long time, and also reducing the production time of the cow, which can reduce the probability of the cow's postpartum syndrome.
