Product Description

Cow Bloodless Castrator Veterinary Instrument 485*44mm 2.18KG Stain Steel

Product Description:

- The bloodless castrator is a scientific veterinary surgical instrument. It is suitable for castration of livestock such as bulls, bullocks and pigs.
- The device achieves the purpose of surgery by clamping the animal spermatic cord through the scrotum of the livestock, and does not need to incision on the scrotum of the livestock, so it is called "no blood castration".

Quick Detail:
