## Product Description

### Pig Shearing Tail Forceps Veterinary Instrument Stainless Steel 0.3KG

#### Product Description:

- The tail-cutting pliers are an auxiliary tool for piglets to break the tail.
- They are generally used for piglets born within 15days.
- This product is made of stainless steel,which is resistant to high temperature,corrosion and rust.
- The insulated handle also protects against leakage.

#### Quick Detail:

Name	Model	Weight	Material
Pig Shearing Tail Forceps	HL-Q18	0.3KG	Stainless Steel

#### Features:

- 1.Insulated handle,anti-leakage.
- 2.Stainless steel material,not easy to rust.
- 3.Fast heating and stop bleeding in time.

#### Steps for usage:

- 1.Preheat for 5-10minutes before use,and keep the piglets.
- 2.When the clamp is hot,put the pig's tailinto the card slot,and then add force to subtract the tail.
- 3.Then put the piglet's tail incision into the plane of blade for about one second.The heat of the blade makes the wound scarred and less susceptible to infection.

#### Competitive Advantage:

- Wide range cows farm equipment: headlock, free stall and hutch;
- Reliable quality and excellent products
- Sample is avaiable
- Lifetime technical service support
