Product Description

Milking Tube Milking Machine Parts PVC 12*22mm Food grade material soft

Product Description:

The milk tube and air tube are important accessories for milking machines and milk parlors, and is widely used in modern aquaculture. The company provides milk tube and pulsation tube made of rubber, silicone and PVC. The milk pipes and air tube of different materials and specifications can meet the needs of different customers. All three materials are wear-resistant and soft. PVC is also transparent and can be used normally all year round. The rubber tube needs to be replaced once a year.
