## Product Description

### L80 Pneumatic Milk Pulsator Milking Machine Parts 2/4 ports Milking soft safe and durable

#### Product Description:

Milk pulsator is a device that makes the air pressure change periodically, and it is one of the essential accessories of the milking machine system. There are gas pulsation and electric pulsation, and various types are available for selection. The adjustable pulsation frequency is suitable for cows, goats and sheep. The corresponding accessories are available separately.
