Product Description

Dehorning Series Dairy Farm Equipment Cow Dehorner 220V/50HZ 1700W Power

Product Description:

Horned cattle are irritable and aggressive. This can easily result in injuries to the cattle if the breeder does not manage them well. More serious injuries can be caused to staff.

The docile nature of the dehorned cattle facilitates management, especially for grazing cattle. To a certain extent, it ensures the safety of the breeder and increases the economic efficiency of the farmer.
