Quick Detail:

Model: HL-MP10B
Material: Polyethylene PE
(imported from Korea)
Size(without fence): 2200*1500*1550mm
Thickness: 4-5mm
Weight: 42KG
Animal: Calf/Goat

Description:

Calf house / hutch, the special house for calves, combines the natural benefits of outdoor calf-rearing with a shelter which provides optimum living conditions whatever the weather is. In the house, there is the commodious inside space for workers stand-up operation. For the calf hutch, optional fence mounted feed saver and 2 buckets protects the feed from weather and the birds. The material of the calf house is glass reinforced plastic. Usually the basic parts for the calf house have buckets, fence and hutch. We could supply the parts according to clients requirement.

Features:

- Effective to prevent calves from spread diseases, breed healthy calves;
- Provide optimum living conditions, increase the breeds production;
- Resistance to high temperature and low temperature;
- With detachability, easy to install, clean and move;
- A good investment, with a long time use life;

Applications:

This is the special house / hutch for calves, at the same, it could be used for other small animals.

Competitive Advantage:

- Certificate: ISO9001: 200, ISO9001-2008 certificate;
- Warranty: one year warranty;
- Price: reasonable price;
- Packing: Pallet, depends on quantity;
