

## Vertical / Horizontal Cooling Jacket Milk Tank For Storing Fresh Milk

Our Product Introduction

### Basic Information

- Place of Origin: China (Mainland)
- Brand Name: HL
- Certification: ISO9001: 200, ISO9001-2008
- Model Number: HL-MC10000
- Minimum Order Quantity: One set
- Price: Negotiation
- Packaging Details: Pallet
- Delivery Time: 15-30 days
- Payment Terms: T/T
- Supply Ability: 30sets/Month

### Product Specification

- Highlight: **milk storage tank , mueller milk tanks**

## Product Description

### Vertical / Horizontal Cooling Jacket Milk Tank For Storing Fresh Milk

#### Quick Detail:

1. Material: Stainless steel 304
2. Equipped with refrigeration system
3. Cooling jacket, PU insulated (50-80mm)
4. Capacity: 500L-10000L
5. Consist of control box, refrigeration group, inlet, CIP cleaning Head, Agitation motor, manhole, temperature meter, tank body, outlet.
6. Working temperature: 35-4 Cels
7. Refrigerant: R404A(recommended)or R22
8. Custom made available
9. Vertical and horizontal two options

#### Description:

1. Adopting internationally-advanced technology of the 1900's.
2. it is cooled by circular and vertical wall.the fully automatic control system makes whole process of observation available.
3. the cooled raw milk can reach rapidly needed temperature of 4-50°C and keeps constant,which can prevent the generation of bacteria and make raw milk as A-grade cream.
4. adopted the imported compressor features high performance,energy-saving,full seal and protection system that prevents damage due to overload.also fitted are high and low liquid level control system and automatic cycle spray and agitating device.the body is made of high quality stainless steel(SUS304).the temperature preservation cool equipment for milk collection station,meadow and unit which specializes in farming milk cow.

#### Applications:

1. used in preserving and storing fresh milk cooling;
2. used for other fresh liquid (beer, soft drink and wine etc.)cooling;
3. used to to refrigerate and retain freshness;
4. used to prevent bacterial breed;
5. used in milk collection center or station;
6. used in dairy and food factory;
7. used in pasture and dairy farmer;

#### Specifications:

Model Number	HL-MC10000
Item	10000L Horizontal Milk Cooling Tank
Capacity	10000 liter
Type	Horizontal
Compressor Power	KW20
Agitator Power	750W
Cooling Capacity	68000W
Refrigerants	22R
Weight	1500KG
Dimension(LxWxH) MM	5800*2000*1550

#### Competitive Advantage:

1. Direct cooling type milk body
2. One of the most important machine for mechanical milk fetching on the pasture
3. Much more suitable for manual milk in diary farming
4. Keep natural milk in good state
5. Prevent bacteria from flourishing.
