

500L Vertical Milk Cooling Tank , Refrigerated Milk Cooling Equipment

Our Product Introduction

Basic Information

- Place of Origin: China (Mainland)
- Brand Name: HL
- Certification: ISO9001: 200, ISO9001-2008
- Model Number: HL-MC10000
- Minimum Order Quantity: One set
- Price: Negotiation
- Packaging Details: Pallet
- Delivery Time: 15-30 days
- Payment Terms: T/T
- Supply Ability: 30sets/Month

Product Specification

- Highlight: milk cooler tank, mueller milk tanks

Product Description

500L Vertical Milk Cooling Tank , Refrigerated Milk Cooling Equipment

Quick Detail:

1. Material: Stainless steel 304
2. Equipped with refrigeration system
3. Cooling jacket, PU insulated (50-80mm)
4. Capacity: 500L-10000L
5. Consist of control box, refrigeration group, inlet, CIP cleaning Head, Agitation motor, manhole, temperature meter, tank body, outlet.
6. Working temperature: 35-4 Cels
7. Refrigerant: R22
8. Custom made available
9. Vertical and horizontal two options

Description:

this vertical milk cooling tank(also called milk chiller, milk storage tank, stainless steel tank) is mainly used in cooling to storage milk or other liquid;

It absorbs international advanced technology, adopts importing compress machine, safety and protection system, micro computer monitor, advanced technique and equipment such as polyurethane bubbling, honeycomb board evaporator. It is three layers with jacket layer and Pu insulation layer , outer and inner mirror polish to easy cleaning,and the cooling unit is use famous brand;

Small land area than horizontal type; bulk milk cooling tank / milk chiller Generally speaking,it is an ideal cooling and storage equipment for pasture, milk station, milk factory, food factory, and beverage factory and pharmacy industry for keeping the milk raw milk in its best situation and prevents the bacteria.

Applications:

Direct milk cooling tank is mainly used for cooling and storage for fresh milk, also can be used to cooling or storage for other liquid product. The cooling tank is the key equipment for the mechanical milking system in the dairy farms. Also widely used in the manual milking farm and milk collection centers, and milk production plants, which can keep the fresh milk at best state and prevent the bacterial growing.

Specifications:

Model Number	HL-MC10000
Item	10000L Horizontal Milk Cooling Tank
Capacity	10000 liter
Type	Horizontal
Compressor Power	20kw
Agitator Power	750W
Cooling Capacity	68000W
Refrigerants	22R
Weight	1500KG
Dimension(LxWxH) MM	5800*2000*1550

Competitive Advantage:

1. Direct cooling type milk body
2. One of the most important machine for mechanical milk fetching on the pasture
3. Much more suitable for manual milk in diary farming
4. Keep natural milk in good state
5. Prevent bacteria from flourishing.
