Product Description

Custom Sanitary Milk Cooling Tank For Dairy Line / Tanks System , 10000L

Quick Detail:

1. Material: Stainless steel 304
2. Equipped with refrigeration system
3. Cooling jacket, PU insulated (50-80mm)
4. Capacity: 500L-10000L
5. Consist of control box, refrigeration group, inlet, CIP cleaning Head,
Agitation motor, manhole, temperature meter, tank body, outlet.
6. Working temperature: 35-4 Cels
7. Refrigerant: R404A(recommended)or R22
8. Custom made available
9. Vertical and horizonal two options

Description:

Milk Chilling Machine / Milk Chilling Tank is the main form a complete set of farm mechanization milking equipment, more suitable for the manual milking farms and milk collection station, cooling collection store dairy milk. Best cooling milk protection, prevent bacterial breeding.

Applications:

1, With beautiful shape, compact structure, high degree of automation, field area is small;
2, Can not only save energy, but also make the liquid cream for a long time in a state of low temperature preservation.

Specifications:

Model Number	HL-MC5000
Item	5000L Horizontal Milk Cooling Tank
Capacity	5000 liter
Type	Horizontal
Compressor Power	10kw
Agitator Power	750W
Cooling Capacity	33550W
Refrigerants	22R
Weight	980KG
Dimension(LxWxH) MM	3500*2000*1550mm

Competitive Advantage:

1. we have sales department, engineering department, after sales department, we are all service for you;
2. We are not competing for the price but the high quality and friendly service we competition
3. The salesman and engineer will listen to your requirements and the effect which you want to reach patiently, and tailored for you;
4. The after sales colleague will service for you from place an order to the actual production;
5. many years of industry experience, industry leader;
6. Factory, office site visit.
