Description:

Calf hutch, a good shelter for the calves, which provides optimum living conditions for them. The optional fence, could offer the out feeding for the animal and 2 buckets protects the feed from weather and the birds. The calf housing has a commodious inside space for workers stand-up operation. The calf housing is made of glass reinforced plastic, with a long time use life; food grade bucket material and strong fence. The calf hutch have many advantages, like eliminating pneumonia, scours and other diseases; improving mortality rates, reducing drug use and vets bills and so on. It is a good investment for farmers and investors.

Applications:

calves, sheep and goats.
