Product Description

SS304 High Rubber Sealing Ring Aluminum Milk Can With Fixed Handle

Quick Detail:

1. Stainless steel material
2. High rubber sealing ring
3. Lockable cover & lid
4. Durable handle

Description:

Our factory has a long experience in manufacturing the dairy products, like milking machine, milking machine spare parts, milk can, milk bucket, milk claw, milk pulsator etc. The milk can is made of aluminum alloy material and stainless steel material to meet different clients from different countries. The milk can is the good container for storing and transporting milk, water, beer and other liquid, and brushed copper and other small grains. Stainless steel milk can uses the durable material(SS201 & SS304)to make, polish inner and outside, with beautiful appearance.

Features:

The milk can takes advanced technology to make, it is durable, with a long time use life. At the same time, it is a deep drawing forming, no welded joint, high-sealing. At milk can conveyor, it is easy to run and clean. Rubber gasket(silicone material, food grade) has the function of assuring sealing and avoiding leakage. The milk can, with hygienic construction, easy draining, built in durable, corrosion proof, sturdy handle, surface anti-oxidation.

Applications:

The milk can is the good container for storing and transporting milk, water, beer and other liquid, and brushed copper and other small grains. Usually been used in dairy farms.

Specifications:

Model Number	HL-B05
Brand	HL
Item	Stainless Steel Milk Can
Material	SS201
Thickness	1.00mm
Parts	Cover, Body, Gasket, Handle
