### HL-JN03C Portable Milking Parlor with Milk Receiver Group and Washing System

#### Quick Detail:

- cow portable milking machine
- With ISO9001:2000 certificate
- With 4 SUS201 milking bucket
- Electrical motor driven, 380 voltage

#### Descriptions:

Cow milking machine, equipped with 4 milking bucket(25 litre), vacuum pump (550L), silencer, vacuum meter, vacuum regulator, oil pot, milk claw, milk pulsator, milk tube, pluse tube, milk liner, milk shell, safty device and short air tube. The bucket milking machine has a long time use life, for some spare parts, like milk liner, milk tube and pulse tube, need change after one year. Compared with other mobile milking machines, the pail bucket milking machine has an important feature, that is, the quantity could be 1 to 8, so it is a small milking parlor. And compared with the herringbone milking parlor, the pail bucket milking machine is more cheaper. The operation and installing of this machine is very simple, just connecting the vacuum pump set with the milking bucket, and then could milking. The worker could operate 4-6 buckets at the same time, so this machine help people save more time and money.

#### Applications:

- cow milking: with stainless steel teat cup, long milk liner and pulse short tube, milk claw;
- goat milking: with goat milk liner and milk shell, also goat milk claw
- sheep milking: with silicone milk liner, plastic milk shell and milk claw
- ideal milking machine for small cowshed and goat / sheep barn

#### Specifications:
