- Payment Terms: T/T, Western Union, Paypal
- Supply Ability: 1000pieces/Month

Product Specification

- Highlight: milking machine claw, milk cluster

Product Description

Milking Machine Milking Claw with 400ml Milking Capacity / PSU Cover

Quick Detail:

- 400CC milking calw
- 400ml milking cluster
- one year warranty
- cow milking machine

Description:

400CC milking claw, also the 400ml milking clusetr is made of PSU (polysulfone) material, it is one most important part for cow milking machine and milking parlor.

One set mobile milking machine is constituted by milking unit and vacuum pump system. And the milking unit, it contains milk bucket, milk tube, pulse tube, milk claw, milk pulsator, milk liner, milk shell and etc.

Vacuum pump system consists of vacuum pump, oil pot, silencer, vacuum meter, vacuum regulator, safty device and etc.

The milking machine claw has one transparent cover, which makes it easy to follow the milk flow and view the milk clearly; it is made of PSU material, or PC material, with a long time use life; without noxious odors and safe to the animals; stainless steel base or plastic base, not easy to be damaged by animals.

As one of the most important spare parts for the milking machine & milking system, we supply different kinds of milk claws to meet differnt clients request, like 150CC / 160CC, 240CC, 300CC, 350CC and others. We also produce special milk claws for goats and sheep.

Applications:

- connecting milking tube and single or double pulse tube
- collecting the milk and then delivering it into bucket
- using in cow milking machine and milking system
