- Payment Terms: T/T, Western Union, Paypal
- Supply Ability: 1000pieces/Month

Product Specification

- Highlight: milking machine claw, milk cluster

Product Description

400ml Milking Capacity 400CC Milking Claw / Milk Cluster with ISO Certificate

Quick Detail:

- 400CC milk calw, 400ml milk cluster
- one year warranty and with ISO certificate
- cow milking parlor and milking system

Description:

400CC milk claw, also the 400ml milk clusetr, made of PSU (polysulfone) material, is used to connect the milking tube and rubber pulse tube. It is one most important part for cow milking machine and milking parlor.

The mobile milking machine is constituted by milking unit and vacuum pump system. Milking unit contains milk bucket, milking tube, pulse tube, milk claw, milk pulsator, milk liner, milk shell and etc.

Vacuum pump system consists of vacuum pump, oil pot, silencer, vacuum meter, vacuum regulator, safty device and etc.

The milk claw has one transparent / clear cover, which makes it easy to follow the milk flow and view the milk clearly; it is made of PSU material, or PC material, with a long time use life; without noxious odors and safe to the animals; stainless steel base or plastic base, not easy to be damaged by animals.

As one of the most important spare parts for the milking machine & milking system, we supply different kinds of milk claws to meet differnt clients request, like 150CC / 160CC, 240CC, 300CC, 350CC and others. We also produce special milk claws for goats and sheep.

Applications:

Trough connecting milking tube and single or double pulse tube, the 400ml milk claw could collect the milk from cows and deliver the milk into bucket or other storage tankers. Usually this kind of milk claw be used in cow milking parlor and milking machine.
