### 550L Vacuum Pump Portable Bucket Milking Machine for Cow with 380 Voltage - 60Hz

#### Quick Detail:

- HL-JN10 bucket milking machine
- portable cow buckets milking machine
- 3 stainless steel milking bucket
- 380 voltage - 60 hz
- with 1 year warranty

#### Descriptions:

HL-JN10 bucket milking machine is similar with the other mobile milking machines, could be used to milk cows, goats and sheep, just changing the milking cluster group. According to clients requirements, the milking bucket quantity could be from 1 to 16. The milking time is different between cow and goat, for each cow, the milking time need about 5 - 6 minutes, for goats, the time will be shorter. This type bucket milking machine is an ideal milker for small cow barns and goats breeding farms. It could help people saving time and cost, because one worker could operate 6-8 milking buckets. One set pail bucket milking machine could be installed the electric motor and diesel or gasoline engine, when the electricity is off, the diesel, or gasoline engine could drive the milking machine.

Pail bucket milking machine with 3 stainless steel milking buckets:  
components:

- 3 sets milking group(milk bucket, milk liner, milk shell, milk claw, milk pulsator etc.)
- one set vacuum pump(oil pot, silencer, belt, pulley etc.)
- one big vacuum regulator
- one large vacuum meter

#### Applications:

- The bucket milking machine suits cows, goats and sheep, just changing the milking cluster group.
- The bucket milking machine spare parts need change after one year;
- The bucket milking machine could use in dairy farms and household;
- The bucket milking machine could be provided for some retailers from different countries;
