HL-JN10 6 Milking Bucket Automatic Cow Milk Machine with 380V 50Hz

Quick Detail:

- HL-JN10 automatic bucket milking machine
- buckets milking machine for dairy cows
- 240 voltage - 60 hz
- with 240ml milking capacity

Descriptions:

Automatic bucket milking machine with 6 stainless steel milking buckets:

components:

- 6 sets milking units(milking bucket, milking liner, teat cupshell, milking claw, milking pulsator etc.)
- one set 850L vacuum pump(oil pot, silencer, belt, pulley etc.)

HL-JN10 automatic bucket milking machine is similar with the mobile milking machines, could be used to milk cows, goats and sheep, just changing the milking cluster group. The milking bucket quantity could be from 1 to 16. The milking time is different between cow and goat, for each cow, the milking time need about 5 - 6 minutes, for goats, the time will be shorter. This type machine is an ideal portable milker for small cow barns and goats breeding farms. It could help people saving time and cost, because one worker could operate 6-8 milking buckets. One set pail bucket milking machine could be installed the electric motor and diesel or gasoline engine, when the electricity is off, the diesel, or gasoline engine could drive the milking machine.

Applications:

- Automatic bucket milking machine suits cows, goats and sheep;
- Automatic bucket milking machine spare parts need change yearly;
- Automatic bucket milking machine suits dairy farms and household;
- Automatic bucket milking machine suits the retailers from different countries;

Specifications:

Model	HL-JN10
Item	Bucket Milking Machine
Milking Time	5-6 min/cow
Pulsator Frequency	60-80 times per minutes
Voltage	240V / 60Hz
Power	0.75kw
Pump Capacity	850L
