Our Product Introduction

Product Description

300ml Milking Capacity Claw / 300CC Milk Claw with Stainless Steel Base

Quick Detail:

- 300ml capacity milking claw
- milking machine spares
- with whole life technical supporting

Description:

300ml capacity milking claw, is the milking machine spares, and the claw cover is made of PC and PSU (polysulfone) material. The claw be used to connect the rubber milking tube and rubber pulse tube, and then collecting and delivering the milk. It is just used for cow milking machine and milking parlor. As one of the most important spare parts for the milking system, we supply various capacity milk claws to meet differnt clients request, like 150CC / 160CC, 240CC, 400CC, 350CC and others. We also produce special milk claws for goats and sheep.

300ml milking claw, we supply two models for choosing, HL-M03 model, this model cover is made of PC material, cheaper than HL-M03A, whose cover is made of PSU material.

The milking machine is constituted by milking unit and vacuum pump system. Milking unit contains milk bucket, milking tube, pulse tube, milk claw, milk pulsator, milk liner, milk shell and etc. So for the milking machine, the milking claw part is very important. The vacuum pump system consists of vacuum pump, oil pot, silencer, vacuum meter, vacuum regulator, safty device and etc.

Features:
