

240CC Milk Collector / Milk Cluster for Cow Mobile Milking Machine

Our Product Introduction

Basic Information

- Place of Origin: China (Mainland)
- Brand Name: HL
- Certification: SGS, FDA Certificate, CE
- Model Number: HL-M02
- Minimum Order Quantity: One piece
- Price: Negotiation
- Packaging Details: Carton
- Delivery Time: 7 - 15 days
- Payment Terms: T/T, Western Union, Paypal
- Supply Ability: 1000pieces/Month

Product Specification

- Highlight: milking machine claw, milk cluster

Product Description

240CC Milk Collector / Milk Cluster for Cow Mobile Milking Machine

Quick Detail:

- 240CC milk collector / milk cluster
- 240ml capacity milking claw
- with transparent cover body and plastic base
- with one whole year warranty
- with ISO9001:2008 certificate

Description:

240CC milk collector / milk cluster, also named 240CC milking claw, with 240ml milking capacity is used to connect the rubber milking tube and pulse tube, and then collecting and delivering the milk. The 240CC milk collector / milk cluster cover is made of PC material with reasonable price and transparent body cover and plastic claw base. As one of the most important spare parts for the milking system, we supply various capacity milking claws to meet different clients request, like 160ml / 150ml, 300ml, 400ml, 350ml and others. Regarding goats and sheep, we produce small capacity milking claws for them.

Two models of 240CC milk collector / milk cluster for choosing :

- HL-M02 model 240CC milk collector / milk cluster: be made of PC material, with transparent cover and plastic base, and cheaper than HL-M02A.
- HL-M02A model 240CC milk collector / milk cluster: be made of PC material, with transparent body cover and stainless steel base.

One set mobile milking machine is constituted by milking system and vacuum pump system. The milking system consists of milking bucket, milking tube, pulse / air tube, milking claw, milking pulsator, milking liner, milking shell and etc. The vacuum pump system consists of vacuum pump, oil pot, silencer, vacuum meter, vacuum regulator, safety device and etc.

Features:

HL-M02	HL-M02A
240CC milk collector / milk cluster	
240ml milking capacity	
with plastic base	with stainless steel base
with transparent cover and automatic shutt-off valve	

Applications:

- 240CC milk collector / milk cluster is used to connect the large bore liners.
- 240CC milk collector / milk cluster is used to connect the milk tube and pulse tube.
- 240CC milk collector / milk cluster is used to match with cow automatic milking machine.
- 240CC milk collector / milk cluster is used to connect with cow milking parlor system.

Specifications:

Item	240CC Milk Collector / Milk Cluster
Model Number	HL-M02
Capacity	240ml milking capacity
Base	plastic base
Cover	transparent cover(PC material)

Competitive Advantage:

- 240CC milk collector / milk cluster has one year warranty.
- 240CC milk collector / milk cluster has good ergonomics.
- 240CC milk collector / milk cluster has unique and lightweight design.
- 240CC milk collector / milk cluster has good quality and reasonable price.
- 240CC milk collector / milk cluster is easy to keep clean and clean.
- 240CC milk collector / milk cluster has plastic base model and stainless steel base model.
