

400cc Milking Machine Milk Cluster for Dairy Cows Milking Equipment

Our Product Introduction

Basic Information

- Place of Origin: China (Mainland)
- Brand Name: HL
- Certification: SGS, FDA Certificate, CE
- Model Number: HL-M04A
- Minimum Order Quantity: One piece
- Price: Negotiation
- Packaging Details: Carton
- Delivery Time: 7 - 15 days
- Payment Terms: T/T, Western Union, Paypal
- Supply Ability: 1000pieces/Month

Product Specification

- Highlight: milking machine claw, milk cluster

Product Description

400cc Milking Machine Milk Cluster for Dairy Cows Milking Equipment

Quick Detail:

- 400cc milking machine milk cluster
- 400ml milking capacity
- transparent cover and steel base
- for dairy cows milking equipment

Description:

400cc milking machine milk cluster, 400ml milking capacity, is used to connect PVC transparent milking tube and PVC transparent pulse tube, and then collecting and delivering the milk. With reasonable price and transparent cover, this kind of milk cluster base is steel material, and the cover is transparent, could see the milk directly. We supply different model milking liners for the milk cluster. As one of the important spare parts for the milking system, our company supply various capacity milk clusters, like 160ml, 300ml, 350ml, 450ml and others. Regarding goats and sheep, we produce small capacity milk claws for them.

No matter the milking machine with one bucket, or two buckets, the components are the same, just the quantity changing, have milking bucket, milking tube, pulse / air tube, vacuum hose, milking claw, milking pulsator, milking liner, milking shell and vacuum pump, oil pot, silencer, vacuum meter, vacuum regulator, safety device and etc.

Features:

- 400ml milking capacity, match with various milking liners;
- transparent cover, could observe the milk directly;
- automatic shutt-off valve or not;
- steel bowl, has a long time use life;

Applications:

- 400cc milking machine milk cluster is used to connect the large bore liners.
- 400cc milking machine milk cluster is used to connect the milk tube and pulse tube.
- 400cc milking machine milk cluster is used to match with cow automatic milking machine.
- 400cc milking machine milk cluster is used to connect with cow milking parlor system.
- 400cc milking machine milk cluster is used to replace other capacity milk cluster.
- 400cc milking machine milk cluster is used to collect milk and then deliver milk.

Specifications:

Item	400CC Milk Claw
Model Number	HL-M04A
Capacity	400ml milking capacity
Base	steel base
Cover	transparent cover
Liner	large bore liners

Competitive Advantage:

- 400cc milking machine milk cluster has one year warranty.
- 400cc milking machine milk cluster has good ergonomics.
- 400cc milking machine milk cluster has unique and lightweight design.
- 400cc milking machine milk cluster has good quality and reasonable price.
- 400cc milking machine milk cluster is easy to keep clean and clean.
- 400cc milking machine milk cluster has approved by ISO and CE certificate.
- 400cc milking machine milk cluster has been exported more than 30 countries.
