Product Description

Semi-automatic Milking Claw for Goats and Sheep with Iron Shard Spares

Quick Detail:

- semi-automatic milking claw
- with iron shard spares
- for goat milking machine
- with one year warranty
- with ISO9001:2008 certificate

Description:

Milking claw / milk cluster, as the most important spare parts, we produce different models and different capacities to meet the cows, goats and sheep.

There are 2 types milking claw for goats and sheep, one is automatic milking claw and the other one is semi-automatic milking claw. In automatic milking claw, the spring is the most important part, but in semi-automatic, it is the iron shard. We supply various capacity milk claws / milk collectors for cows, like160ml, 300ml, 400ml, 350ml and others.

The mobile milking machine components have milking bucket, milking tube, pulse / air tube, milking claw, milking pulsator, milking liner, milking shell and vacuum pump, oil pot, silencer, vacuum meter, vacuum regulator, safty device and etc.

Applications:

- Semi-automatic milking claw is used to connect the goat milk liners and tubes.
- Semi-automatic milking claw is used to connect the milk tube and pulse tube.
- Semi-automatic milking claw is used to match with goat automatic milking machine.
- Semi-automatic milking claw is used to connect with goat milking parlor system.
