Dairy Farm Equipment Stainless Steel Calf Puller Cattle Obstetric Apparatus 1.8m Length

Product Description:

The Obstetric Calf Puller is a manual tool designed to assist in delivering calves during the birthing process. It is commonly referred to as a Calf Extractor Obstetric or Cow Puller Obstetric. This tool is made of high-quality stainless steel, ensuring durability and reliability in assisting with difficult calvings.

Measuring 180 cm in length, this Obstetric Calf Puller provides the necessary reach and leverage needed to safely aid in the delivery of calves. Its long design allows for easier access and maneuverability during the birthing process, making it an essential tool for farmers and veterinarians.

One of the key features of this Calf Extractor Obstetric is its non-slip handles, which provide a secure grip even in challenging conditions. The non-slip design ensures that users can maintain control and exert the necessary force without the risk of slipping or losing grip during the delivery process.

Additionally, the Obstetric Calf Puller is equipped with an adjustable chain, allowing users to customize the tool's length and adapt it to different calving situations. The adjustable chain feature enhances the versatility of this Cow Puller Obstetric, making it suitable for a variety of cow sizes and positions.

Constructed from stainless steel, this Cow Puller Obstetric is built to withstand the rigors of frequent use and demanding calving situations. Its durable design ensures that it can provide reliable assistance during calvings for years to come, making it a valuable investment for any livestock operation.

Overall, the Obstetric Calf Puller is a practical and essential tool for assisting in the delivery of calves. With its manual operation, stainless steel construction, 180 cm length, non-slip handles, adjustable chain, and durable build, this Cow Puller Obstetric is a reliable and effective solution for aiding in calvings and ensuring the safety of both the cow and the newborn calf.

Features:

- 1) Non Slip Grip Premium Quality Handle.
- 2) Polish to high Standard Finish.
- 3) Fully guaranteed against defect in material and workmanship.
- 4) Manufactured from High Quality Medical Grade Stainless Steel.
- 5) High Degree of Precision and Flexibility while conducting the Clinical Procedure.

Product Name:	Dairy Farm Equipment Stainless Steel Calf Puller Cattle Obstetric Apparatus 1.8m Length
