HL-JN10 Cow Farm Pail Bucket Milking Machine with Electric Motor 380V 50Hz

Quick Detail:

- 3 buckets milking machine for dairy cows
- pail bucket milking machine unit milking cow
- with 3 sets stainless steel milking cup groups
- farm milking equipment suitable for cows and goats

Descriptions:

Bucket milking machine, different from the mobile milking machine, is one simple milking parlor system, the buckets quantity for the pail bucket milking machine could be from 1 to 12, and even more. This milking machine system is equipped with one 3500L/min vacuum regulator, and has the metal material vacuum transportation pipe for air deliverring. The bucket milking machine has a long time use life, for some spare parts, like milk liner, milk tube and pulse tube, need change after one year. The operation and installing of this machine is very simple, just connecting the vacuum pump set with the milking bucket, and then could milking. The worker could operate 4-6 buckets at the same time, so this machine help people save more time and money.

Applications:

- cow bucket milking machine: with stainless steel teat cup shell, milk liner and pulse short tube, milk claw;
- bucket type goat milking machine: with goat milk liner and plastic milk shell, also goat milk claw;
- ideal milking machine for small cowshed and goat / sheep barn;
