

## HL-JN10 Electric Motor Driven Pail Bucket Milking Machine for Milking 3 Cows

Our Product Introduction

for more products please visit us on [mobilemilkingmachine.com](http://mobilemilkingmachine.com)

### Basic Information

- Place of Origin: China
- Brand Name: HL
- Certification: CE
- Model Number: HL-JN10
- Minimum Order Quantity: 1 sets
- Price: Negotiation
- Packaging Details: Woodern Crate
- Delivery Time: 7-15 days
- Payment Terms: T/T, Western Union,Paypal
- Supply Ability: 120 sets/month

### Product Specification

- Item: Electric Motor Milking Machine
- Type: Bucket Type
- Voltage: 380V
- Motor Power: 1.1KW
- Vacuum Pump: 550L
- Bucket Qty: 3
- Highlight: dairy milking machine, small milking machine

### HL-JN10 Electric Motor Driven Pail Bucket Milking Machine for Milking 3 Cows

#### Quick Detail:

- automatic milking machine milking cows
- bucket milking machine milking three cows at one time
- automatic milk sucking machine with inox muffler
- electric motor driven the pail milking machine system
- stainless steel horizontal buffer tank for vacuum storage
- milking equipment is also suitable for cattles and goats / sheep

#### Descriptions:

The electric motor driven bucket milking machine is different from the mobile milking machines, it is one simple milking parlor system, and suitable for different animals milking, like cows, goats, cattle and so on. The buckets quantity for the pail bucket milking machine could be from 1 to 12, and even more. This milking machine system is equipped with one 3500L/min vacuum regulator, and has the metal material vacuum transportation pipe for air delivering. The bucket milking machine has a long time use life, for some spare parts, like milk liner, milk tube and pulse tube, need change after one year. The operation and installing of this machine is very simple, just connecting the vacuum pump set with the milking bucket, and then could milking. The worker could operate 4-6 buckets at the same time, so this machine help people save more time and money.

Horizontal vacuum buffer tank:

- stainless steel vacuum buffer tank
- 550L vacuum pump in cast iron material
- stainless steel silencer for reducing the milking noise
- perfect oil pot oil can for the bucket milking machine
- 1.1kw motor power with 1400r/min motor speed

#### Applications:

The electric motor driven bucket milking machine is suitable for cows, cattles, sheep and goats milking, just the milking cup group is different.

- cows and cattles bucket milking machine: the milking cup groups will be equipped with stainless steel teat cup shell, milk liner and pulse short tube, milk claw;

- sheep and goat bucket milking machine: the milking cup groups have silicone milk liner and transparent plastic milk shell, also goat milk claw;

The automatic bucket milking machine is an ideal milking machine for small cowshed and goat / sheep barn;

#### Specifications:

Model Number	HL-JN10
Item	Pail Bucket Milking Machine
Milking Time	5-6 min/cow
Pulsator Frequency	60-80 times per minutes
Voltage	380V/ 50Hz
Power	1.1kw
Pump Capacity	550L
Bucket Quantities	3/pcs(25 litre)
Milking Clusetr Group	3 sets
Worker	1

Note: also suitable goats and sheep, just changing the milking cluster group.

#### Competitive Advantages:
