

HL-JN10 High Efficiency 5 Bucket Milking Machine for Dairy Cow Farm

Our Product Introduction

for more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: HL
- Certification: CE
- Model Number: HL-JN10
- Minimum Order Quantity: 1 sets
- Price: Negotiation
- Packaging Details: Woodern Crate
- Delivery Time: 7-15 days
- Payment Terms: T/T, Western Union,Paypal
- Supply Ability: 120 sets/month

Product Specification

- Item: Vacuum Sheep Milking Machine
- Type: Vacuum Pump Bucket Type
- Animal: Sheep
- Pulsator: L80
- Clawpiece: 240CC
- Bucket Capacity: 25L
- Highlight: portable milking machine, small milking machine

HL-JN10 High Efficiency 5 Bucket Milking Machine for Dairy Cow Farm

Quick Detail:

- sheep milking machine with vacuum pump suction milk
- automatic milking machinery sheep milking machine
- electric motor driven the vacuum milking machine system
- stainless steel horizontal storage tank for milking machine
- sheep milking equipment need change the milking cup group

Descriptions:

The vacuum pump bucket milking machine, even though it is driven by the electric motor and belt, it is still different from the mobile milking machines, it is one simple milking parlor system, and suitable for different animals milking, like cows, goats, cattle and so on. The buckets quantity for the pail bucket milking machine could be from 1 to 12, and even more. This milking machine system is equipped with one 3500L/min vacuum regulator, and has the metal material vacuum transportation pipe for air deliverring. The bucket milking machine has a long time use life, for some spare parts, like milk liner, milk tube and pulse tube, need change after one year. The operation and installing of this machine is very simple, just connecting the vacuum pump set with the milking bucket, and then could milking. The worker could operate 4-6 buckets at the same time, so this machine help people save more time and money.

Horizontal vacuum buffer tank:

- stainless steel vacuum buffer tank
- 550L cast iron material vacuum pump
- stainless steel muffler for noise reducing
- perfect oil can on bucket milking mmachine
- 1.1kw motor power with 1400r/min motor speed

Applications:

The electric motor driven vacuum pump bucket milking machine is suitable for cows, cattles, sheep and goats milking, just the milking cup group is different.

- sheep and goat milking machine: the milking cup groups have silicone milk liner and transparent plastic milk shell, also goat milk claw;
- cows and cattles milking machine: the milking cup groups will be equipped with stainless steel teat cup shell, milk liner and pulse short tube, milk claw;

The bucket milking machine is an ideal milking machine for small cowshed and goat / sheep barn;

Specifications:

Model Number	HL-JN10
Item	Pail Bucket Milking Machine
Milking Time	5-6 min/cow
Pulsator Frequency	60-80 times per minutes
Voltage	380V/ 50Hz
Power	2.2kw
