

## Electric Motor 220V 50Hz Dairy Cow Scratching Brush For Animal Massager and Cleaning

Our Product Introduction

for more products please visit us on [mobilemilkingmachine.com](http://mobilemilkingmachine.com)

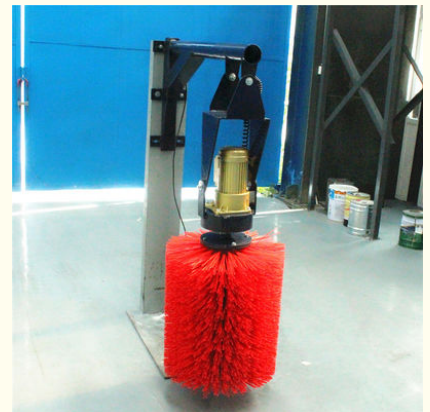

### Basic Information

- Place of Origin: China (Mainland)
- Brand Name: HL
- Model Number: HL-MP16
- Minimum Order Quantity: One Set
- Price: Negotiation
- Packaging Details: Wooden Case
- Delivery Time: 10-15 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 500SETS/Month
- Warranty: One year

### Product Specification

- Model Number: HL-MP16
- Item: Hanging Type Cow Brush
- Brushing Diameter: 500mm
- Brushing Height: 600mm
- Ratio: 1:60
- Payment: T/T, Paypal, Western Union
- Power: 100w
- Material: Nylon
- Color: Yellow
- Highlight: cattle scratching brush, cattle scratcher brush

### Electric Motor Dairy Cow Scratching Brush For Animal Massager and Cleaning

The cow body brush is a cleaning tool specifically designed for cows, primarily used in pastures or cowsheds to help maintain their cleanliness and health. The main functions of the cow body brush are as follows:

1. Clean skin and hair: The cow body brush can effectively remove dirt, mud, feces, and parasites from cows' bodies, keeping skin and hair clean and reducing the occurrence of skin diseases.
2. Promote Blood Circulation: The friction of the bristles can stimulate the cow's skin, promoting blood circulation and contributing to its health and growth.
3. Reduce Parasites: By regularly brushing, you can reduce the breeding of lice, mites, and other parasites on the cow, thereby lowering the risk of parasite infection.
4. Relieve itching: Cattle sometimes rub against walls or the ground due to itchy skin, which can easily cause skin damage. Using a cow body brush can help relieve itching in cows and reduce this behavior.
5. Enhance Comfort: Cleaning and massage can make cows feel more comfortable, reducing stress responses and improving their overall welfare and production performance (such as milk yield or weight gain).
6. Improve the appearance of cows: Regular brushing can make the cows' fur smoother and neater, enhancing their appearance quality, especially during display or sales.

Cow body brushes are usually installed in cow sheds or pastures in a position that allows cows to rub themselves conveniently. There are also manual models available for use by livestock farmers. The proper use of cow body brushes is an important part of scientific livestock farming.

#### Cow Brush Advantages:

1. Be Comfortable for cow body, remove parasites and excrement, significantly improve cow comfort, reduce cattle/cow Irritable mood;
2. With a strong massage function, promote cattle gastric motility and blood circulation, increase roughage Intake;
3. With easy operation, no maintenance and with auto-sensing;
4. The motor is at low speed, low noise; power saving, long life brush body;
5. Auto flip function entangled oxtail or hairs;

#### Cow Brush Specification:

Item	Brushing Diameter	Brushing Height	Ratio	Power	Material
Hanging Type Cow Body Brush	500mm	600mm	1:60	100W	Nylon

#### Cow Brush Maintenance:

Always check the screws are loose or fall off, if appropriate efforts to tighten loose, hinge Do not tighten, to have activity, according to the actual situation to adjust, and timely view cables if Broken off;
