

## Two Inox Buckets Gasoline Vacuum Milking Equipment for Dairy Cattles Milking

Our Product Introduction

for more products please visit us on [mobilemilkingmachine.com](http://mobilemilkingmachine.com)

### Basic Information

- Place of Origin: China (Mainland)
- Brand Name: HL
- Certification: CE, ISO, FDA, SGS
- Model Number: HL-JN08
- Minimum Order Quantity: One Sets
- Price: Negotiation
- Packaging Details: Wooden Crates
- Delivery Time: 5-7 days
- Payment Terms: T/T, Western Union, Paypal
- Supply Ability: 500sets/Month

### Product Specification

- Item: Gasoline Vacuum Milking Equipment
- Power: Gasoline
- Type: Vacuum Type
- Bucket Quantity: 2 Milking Barrel
- Bucket Material: Steel Milking Barrel
- Animal: Dairy Cattle
- Highlight: portable milking machine, small milking machine

## Product Description

### Two Inox Buckets Gasoline Vacuum Milking Equipment for Dairy Cattles Milking

#### Quick Details:

- Item: gasoline vacuum milking equipment
- Model: HL-JN08
- Power: Gasoline / Petrol
- Theory: vacuum pump
- Advantages: could operate it without electricity, apply for some power shortage areas.
- Range: suitable for cows, cattles, goats, sheep etc., just changing the milk cup group;
- Components:

milking bucket group	vacuum pump system
2* 25l stainless steel milk bucket 2* 240cc milk collector / claw 1* pneumatic milk pulsator 8* stainless steel milk shell 8* rubber milk inflation / liner 8* rubber short pulse tube 2 x 2.8M* transparent milk tube 2 x 2.8M* transparent twin pulse tube	1* 250l vacuum pump 1* gasoline engine 1* vacuum tank 1* vacuum regulator 1* vacuum meter / gauge 1* stainless steel silencer / muffler 1* plastic oil pot / can

#### Description:

HL-JN08, the gasoline vacuum milking equipment, different from the electric motor milking machine, is driven by the gasoline / petrol engine. This kind of gasoline vacuum milking equipment milking machine is popularly use in some power shortage areas. The gasoline vacuum milking equipment could be matched with single milking bucket, or dual milking bucket using, it depends on the users choosing and the animal quantity.

We could install the electric motor on the gasoline vacuum milking equipment, means the worker could use the electricity or fuel to finish milking. The dual-using milking machine now is more widely popular in many countries.

One complete set of portable gasoline vacuum milking equipment contains two main parts: milking bucket group and vacuum pump system. Details as below:

- vacuum pump system: vacuum pump, vacuum tank, vacuum meter, vacuum regulator, silencer, oil pot, belt, petrol engine and other connecting parts.
- milking bucket group: milk bucket, milk liner, milk shell, long milk tube, twin pulse tube, short pulse tube, milk pulsator, milk claw, brackets and other small parts.

The material and model for many parts are selectable, like milk bucket, milk shell, milk tube, milk liner, pulse tube, milk claw, milk pulsator.

#### Benefits:

- with heavy duty wheels, move easily;
- with wire cabinet, safty to operate;
- with single or double milking bucket for choosing;
- with stainless steel muffler / silencer for reducing the noise;
- with stainless steel frame, unique designe, easy to operate and maintain;
- with stable vacuum and pulsation rate, help to get ideal milk production;
- with small vacuum fluctuations and milking softly, not affect the physical health of animals;

#### Specification:

Model	HL-JN08 (Single Bucket)	HL-JN08 (Double Bucket)
Vacuum Degree	0.04-0.05Mpa(adjustable)	0.04-0.05Mpa(adjustable)
Pulsation Times	60-80 times per minute	60-80 times per minute
Pulsation Rate	60:40	60:40
Power Fitted	0.75kw	1.1kw
Productivity	10-12 cows / hour 20-30 goats / hour	20-24 cows / hour 40-60 goats / hour
Vacuum Pump Capacity	250 L/min	250 L/min
Gasoline Motor Speed	1800 r/min	1800 r/min
Bucket Quantity	1piece(25L)	2pieces(25L)

#### Application:

This gasoline vacuum milking equipment applys for small dairy farms and individual farmers, is suitable for different animals milking, like cows, cattles, goats and sheep, just changing the milking cluster group.
