

Animal Hoof Care Static Mixing Nozzles Glue Head For Complex Fluids And Adhesives

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-Q30C
- Minimum Order Quantity: 1 PCS
- Price: \$0.77/PCS
- Delivery Time: 3-5 working days
- Payment Terms: T/T
- Supply Ability: 50000PCS /Month

Product Specification

- Item: Glue Head (Epoxy Mixing Nozzle)
- Compatibility: Glue With Different A And B Ratios And Large Viscosity Error
- Suitable For: Two-Part Adhesive Cartridges
- Simplified Process: No Need For Additional Mixing And Stirring Tools For Cleanup
- Material: Epoxy
- Mixing Nozzle Type: Static Mixing Nozzles
- Mixing Element: 24 Element
- Highlight: **Animal Hoof Care Static Mixing Nozzles, Complex Fluids Static Mixing Nozzles, Adhesives Static Mixing Nozzles**

Product Description:

One essential component of hoof trimming is using the right kind of glue. The Cattle Hoof Trimming Tools are compatible with glue that has different A and B ratios and large viscosity error. This means that you can use a wide range of glues with these tools, giving you more flexibility and convenience in your hoof trimming routine.

The Cattle Hoof Trimming Tools come with a mixing element that consists of 24 elements. This ensures that the glue is thoroughly mixed and ready to use. The mixing element is designed to work seamlessly with the glue head, which is an epoxy mixing nozzle. This nozzle is made of durable and high-quality epoxy material, ensuring that it will last for a long time.

The mixing nozzle of the Cattle Hoof Trimming Tools is a static mixing nozzle. This means that the glue is mixed as it passes through the nozzle, ensuring that it is evenly mixed and ready to use. This is crucial for ensuring that the glue is applied correctly and that the cow's hoof pad is properly cared for.

The Cattle Hoof Trimming Tools are designed to be used with cow hoof pads, which are an essential component of cow comfort. These pads help to reduce stress on the cow's hooves and improve their overall well-being. The rubber hood pad is an excellent choice for this purpose, as it is durable, comfortable, and easy to install.

In summary, the Cattle Hoof Trimming Tools are an essential tool for farmers and livestock owners who want to keep their cows healthy and comfortable. With their compatibility with a wide range of glues, 24-element mixing element, durable epoxy mixing nozzle, and static mixing nozzle, these tools are the perfect choice for any hoof trimming routine. And with the option to use rubber hood pads for cow hoof pads, you can be sure that your cows will be comfortable and well-cared for.

Features:

Product Name: Cattle Hoof Trimming Tools

Mixing Element: 24 Element

Simplified Process: No Need For Additional Mixing And Stirring Tools For Cleanup

Material: Epoxy

Item: Glue Head (Epoxy Mixing Nozzle)

Compatibility: Glue With Different A And B Ratios And Large Viscosity Error

Works for Cow Hoof Pad, Cow Hoof Pad, Wooden Hood Pad

Technical Parameters:

Material	Epoxy
Suitable For	Two-Part Adhesive Cartridges
Mixing Nozzle Type	Static Mixing Nozzles
Mixing Element	24 Element
Compatibility	Glue With Different A And B Ratios And Large Viscosity Error
Item	Glue Head (Epoxy Mixing Nozzle)
Simplified Process	No Need For Additional Mixing And Stirring Tools For Cleanup

Applications:

The Chuangpu HL-Q30C cattle hoof trimming tools, equipped with static mixing nozzles, are ideal for use in various product application occasions. The mixing element of 24 elements allows the user to mix the adhesive material thoroughly, ensuring a consistent and reliable result. Farmers and veterinarians can use these tools to trim the cow's hoof pad, which is an essential part of the cow's hoof. By trimming the hoof pad, the tools help to reduce the risk of lameness and other hoof-related diseases in cows.

The Chuangpu HL-Q30C cattle hoof trimming tools are suitable for various scenarios. Farmers who own dairy farms can benefit from these tools by using them to maintain and care for their cows' hooves. In addition, veterinarians can also use these tools to provide hoof care services to cows in different settings. These may include veterinary clinics, farms, and other places where cows are kept. The Chuangpu HL-Q30C cattle hoof trimming tools are easy to use and can be used by anyone with the necessary knowledge and skills.

In conclusion, the Chuangpu HL-Q30C cattle hoof trimming tools are a must-have for farmers and veterinarians who want to maintain and care for cow hooves. These tools are made of high-quality epoxy material, equipped with static mixing nozzles with a mixing element of 24 elements. They are ideal for product application occasions that require the trimming of the cow's hoof pad, ensuring a consistent and reliable result. Suitable for a wide range of scenarios, these tools can be used by anyone with the necessary knowledge and skills.

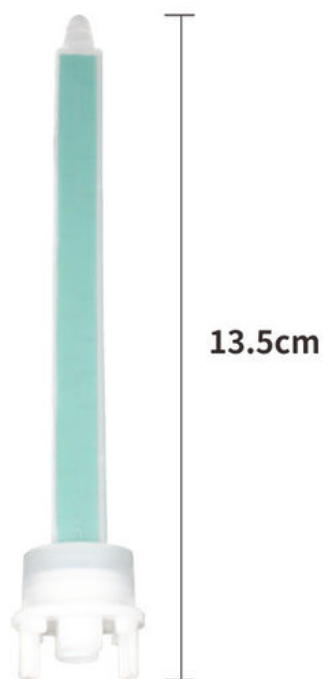

BOTTLE GLUE HEAD

WE ALWAYS ADHERE TO RIGOROUS MANAGEMENT, THE FOUNDATION OF METICULOUS MANUFACTURING,
PRODUCE PRODUCTS THAT MEET THE MARKET'S RULES AND CUSTOMER NEEDS

Product Model: HL-Q30C

Product weight: 9g/pc

Product Features: Built-in thread design, with the use of quick-setting AB glue, fast and uniform mixing, fast extrusion, not easy to block, save glue, good mixing effect!
