### Product Description:

#### Product Summary: Lvle Quintment Cattle Hoof Trimming Tools

The Lvle Quintment Cattle Hoof Trimming Tools is a must-have for cattle owners who want to maintain the health of their livestock. This product is designed to help maintain the hooves of your cattle, keeping them healthy and free from infections. The product comes in a volume of 450G and a cream color of green.

The Lvle Quintment Cattle Hoof Trimming Tools is specifically designed to repair and maintain the hoof pad of cattle. The product is formulated with high-quality ingredients that help repair and protect the hoof pad, keeping it healthy and strong. With this product, you can prevent your cattle from suffering from lameness, which can be caused by hoof problems.

The Lvle Quintment Cattle Hoof Trimming Tools is suitable for use on 30-45 hooves, making it ideal for small to medium-sized farms. The product is easy to use and can be applied directly to the hoof pad. The cream-like texture of the product makes it easy to apply and ensures that it stays in place for longer.

Using the Lvle Quintment Cattle Hoof Trimming Tools on a regular basis can help prevent hoof problems such as hoof rot, white line disease, and thrush. The product is also effective in treating these conditions, helping to promote faster healing and preventing re-infection.

Overall, the Lvle Quintment Cattle Hoof Trimming Tools is an essential product for any cattle owner who wants to maintain the health of their livestock. With its high-quality ingredients, easy application, and effectiveness in treating and preventing hoof problems, this product is a must-have for any farm that cares about the well-being of its cattle.

If you are a farm owner or livestock keeper, the Chuangpu HL-Q31 cattle hoof trimming tool and Lvle Quintment Repair Hoof Cream are must-have items. They are designed to help you maintain the health and wellbeing of your cattle's hooves. The rubber hood pad on the

HL-Q31 ensures a comfortable grip and prevents slipping, making it safe to use. The Lvle Quintment Repair Hoof Cream is an excellent product to use after trimming your cattle's hooves. It provides necessary nutrients that help improve the health of your cattle's hooves.

# HOOF TRIMMING QINTMENT

WE ALWAYS ADHERE TO RIGOROUS MANAGEMENT, THE FOUNDATION OF METICULOUS MANUFACTURING,  
PRODUCE PRODUCTS THAT MEET THE MARKET'S RULES AND CUSTOMER NEEDS.

**Product Model :** HL-Q31

**Product Specification :** 450g/bottle

**Use:** It is suitable for wound dressing of hoof rot and ulcer hoofitis

**Product Features:** This product is a gel-like hoof wound dressing. Containing minerals and aloe vera ingredients, the texture is sticky, which accelerates the regeneration of wounded blood vessels, skin tissue, connective tissue, and hoof shell cutin, which is more resistant to harsh environmental erosion and reduces the recurrence of hoof disease.

Protection Restoration Regeneration

### Usage and dosage

---

After hoof warts, hoof leaks and other hoof disease operations, apply 10-15g evenly on the wound, or apply it with Lvle spray after spraying, and wrap it with a bandage after applying evenly. Remove the bandage after 3-5 days.
