### Product Description:

The Plastic Calf Enclosure is designed to house one calf up to 6 months old, providing ample space for them to move around and play. The Galvanized Fence Coating ensures that the shelter is resistant to rust and corrosion, so you can be confident that it will stand up to the elements and last for years to come.

The Plastic Calf Shelter is easy to assemble and move around, making it a convenient addition to your farm. It is also easy to clean and maintain, ensuring that your calf has a clean and healthy environment to grow in.

For added peace of mind, this Plastic Calf Hut comes with a one-year warranty, so you can be confident in your purchase.

Whether you are a small-scale or large-scale farmer, the Plastic Calf Enclosure is an excellent investment for your farm. It provides a safe and comfortable environment for your calves to grow and thrive, ensuring that they are healthy and happy.

### Features:

Product Name: Plastic Calf Hutch

Durability: More Than 40 Years

Material: Imported PE

Fence Size: 1700\*1500\*1000mm

Portability: Yes

Easy To Clean: Yes

Our Plastic Calf Hutch (also known as Plastic Calf Cabin, Plastic Calf Shed, or Plastic Baby Cow House) is made with imported PE material that ensures durability for more than 40 years. The fence size is 1700\*1500\*1000mm, providing ample space for the calf to move around. Additionally, the hutch is designed to be portable and easy to clean, making it a convenient choice for farmers and ranchers.

### Technical Parameters:

Product Attribute	Value
Product Name	Plastic Calf Enclosure
Fence Weight	30 Kg
Fence Size	1700*1500*1000mm
Hutch Size	2200*1500*1550mm
Thickness	4-5mm
Portability	Yes
Durability	More Than 40 Years
Material	Imported PE
Quantity	1 Calf
UV Resistant	Yes
Recommended Age	0-6 Months

### Applications:

The Plastic Calf Enclosure is easy to clean, making it an ideal choice for farmers who value hygiene and cleanliness. The fence weight is 30 Kg, making it easy to move around and transport. Here are some of the product application occasions and scenarios for the Plastic Calf Hutch:

**Small Farms:** For small farms with limited space, the Plastic Calf Enclosure is a perfect choice. It provides a safe and secure environment for young calves to grow and develop.

**Livestock Shows:** The Plastic Calf Pen is an excellent choice for livestock shows. It is easy to transport and set up, making it a convenient option for showcasing calves.

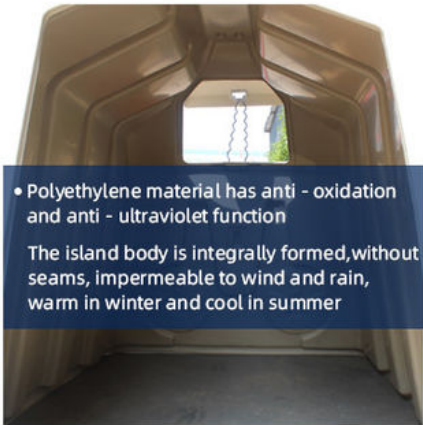

**Veterinary Clinics:** The Plastic Calf Enclosure is also suitable for veterinary clinics. It provides a safe and secure environment for young calves to recover from surgery or illness.

**Research Facilities:** Research facilities can also benefit from the Plastic Calf Enclosure. It provides a controlled environment for studying the behavior and growth of young livestock.

Overall, the Chuangpu HL-MP10A Plastic Calf Hutch is a versatile and durable product suitable for a wide range of applications. Its ease of use and maintenance make it an excellent investment for any farm or facility that values quality and hygiene in their livestock management.

# PRODUCT DETAILS

ENABLE CALVES TO USE CONCENTRATED FEED EARLY TO ENHANCE CALF PHYSIQUE  
AND INCREASE GROWTH RATE

- Polyethylene material has anti - oxidation and anti - ultraviolet function
- The island body is integrally formed, without seams, impermeable to wind and rain, warm in winter and cool in summer

- 8mm thick hot-dip galvanized fence, three pieces can be freely disassembled and assembled

- Food grade bucket, safe and reliable feeding
- Made of new material, no pores, and drop resistance

- Rotomolding process, smooth appearance without burrs

- The unique ventilation design at the rear can adjust the ventilation volume independently, making it more convenient to add padding material

Note: Calf fencing belongs to galvanized products, different processes and procedures will lead to the appearance of the finished product can not be guaranteed color consistency; At the same time there will be a little hanging points and hanging liquid, but does not affect the performance of the product.
