Product Description:

One of the main advantages of using these Calf Hutch Parts is that they are weather-resistant, meaning they can withstand harsh weather conditions. This ensures the longevity of the parts and saves you money in the long run.

The Calf Hutch Parts are designed to be filled with water/milk/food, which can then be used to feed calves. This saves you time and effort as you do not have to carry water/milk/food separately. This ensures that your calves are healthy and well-fed as they grow.

These calf housing components are easy to install and maintain, making them a great addition to your heifer barn segments. They are durable and can withstand the wear and tear that comes with daily calf care activities. With these calf hutch parts, you can rest assured that your calves are well taken care of.

Applications:

The HL-MP10D-2 Calf Hutch Parts from Chuangpu are designed to withstand the outdoor elements, ensuring that they can hold up for years of use. These heavy-duty parts are designed with a base diameter of 290mm, providing a stable foundation for the calf pen units. These cowshed parts from Chuangpu are also incredibly lightweight, weighing in at just 0.65KG per unit. This makes them easy to maneuver and install, allowing farmers to quickly and easily set up their calf hutch units without any hassle.

One of the main advantages of the Chuangpu HL-MP10D-2 Calf Hutch Parts is their compatibility with a wide range of calf hutch units. This makes it easy for farmers to find the right parts for their specific needs, ensuring that their calves have a safe and comfortable place to stay.

Whether you are a farmer looking to set up a new calf hutch unit or you need to replace some worn-out parts, the Chuangpu HL-MP10D-2 Calf Hutch Parts are an excellent choice. So why wait? Order yours today and ensure that your calves have the best possible living conditions!
