Product Description:

Our Calf Hutch Parts have a volume of 5L, making them perfect for filling with water, milk, or food to feed your calves. The base diameter of our Calf Hutch Parts is 270mm, providing a stable base for your calves to feed from. With a height of 170mm, our Calf Hutch Parts offer the perfect size for your young calves to access their food and water easily.

We understand that your needs may be unique, which is why we offer customized scales for our Calf Hutch Parts. This ensures that you get the perfect fit for your young cattle hutch pieces. Whether you need a larger or smaller size, we can accommodate your needs to ensure that your young calves have everything they need to grow up healthy and strong.

Our Calf Hutch Parts are easy to install and use. Simply fill the parts with water, milk, or food, and your young calves will have easy access to their nourishment. The parts are also easy to clean, ensuring that your young cattle hutch pieces remain hygienic and safe for your calves to use.

Our Calf Hutch Parts are made from high-quality materials, ensuring that they are durable and long-lasting. This means that you can rely on our calf shed components to provide the necessary support for your young calves for years to come.

In summary, our Calf Hutch Parts offer the perfect solution for your calf shed component needs. With a volume of 5L, a base diameter of 270mm, and a height of 170mm, our Calf Hutch Parts are the perfect size for your young calves. We also offer customized scales to ensure that you get the perfect fit for your young cattle hutch pieces. Our Calf Hutch Parts are easy to install and clean, ensuring that they remain hygienic and safe for your calves to use. Made from high-quality materials, our Calf Hutch Parts are durable and long-lasting, providing the necessary support for your young calves for years to come.
