Product Description:

Designed for easy use, this feeding bottle is a great addition to your farmyard essentials. It is easy to clean through hand washing, ensuring no residual milk is left behind to cause any infection or disease. Being made of food-grade PE material, it is safe to use for feeding calves. The slow flow type of the bottle allows the young bovines to ingest milk at their own pace, without any pressure or discomfort.

The Calf Feeding Bottle serves the primary function of feeding calves with milk. It is an excellent tool for farmers who want to ensure that their young bovines receive the necessary nutrition for growth and development. The slow flow type of the bottle is perfect for young bovines who are just learning to drink milk from a bottle.

In conclusion, the Calf Feeding Bottle is an essential tool for Bovine Feeder. This Bottle for Calf Nourishment is made of food-grade PE material, safe for the calves to consume milk from without any harmful effects. It comes with a slow flow type, which is ideal for young bovines to ingest milk at their own pace. The package includes one feeding bottle, making it an excellent addition to your farmyard essentials. It is easy to clean through hand washing, ensuring no residual milk is left behind to cause any infection or disease. So, get your hands on this Young Bovine Bottle and ensure the proper nourishment of your calves.
