Product Description:

One of the standout features of this bottle is the soft nipple, which mimics the feel of a mother cow's teat. This creates a more natural feeding experience for your calf, helping them to latch on and feed with ease. The slow nipple flow also promotes a slower feeding pace, which is important for proper digestion and preventing overeating.

Whether you are a farmer or a rancher, this Baby Cattle Feeder is a must-have for your livestock equipment. It is made from high-quality materials that are durable and easy to clean, ensuring that it will last through many feeding sessions. Plus, the round shape of the bottle makes it easy to store and transport, allowing you to take it with you wherever you go.

In summary, the Calf Nursing Bottle is an excellent choice for anyone who needs to feed baby cattle or juvenile bovines. Its anti-slip grip, anti-colic design, soft nipple, and slow flow make it a comfortable and effective feeding solution for your animals. Order yours today and see the difference it can make in your feeding routine!

Features:

Product Name: Calf Feeding Bottle

Age Range: 0-6 Months

Nipple Flow: Slow

Nipple Size: Medium 102x20mm

Nipple Type: Soft

Anti-Slip Grip	Yes, With Handle
Product Description	Calves Nourishing Container, Baby Cattle Feeder

Applications:

This calf feeding bottle is suitable for young bovines aged 0-6 months. It is a perfect product for farmers who want to provide the best nourishment for their calves. The milk flow can be easily adjusted, allowing the calf to drink at their own pace.

The Chuangpu HL-MP51C bottle is perfect for a variety of occasions and scenarios. It is ideal for use on dairy farms and livestock farms, where young bovines require regular feeding. The bottle can also be used by individual farmers who have a small number of calves to feed.

This product is essential for farmers who want to ensure the healthy growth and development of their young bovines. The backflow prevention design of the bottle ensures that the calf does not consume any air, which can cause discomfort and colic. The milk flow

adjustment feature allows the calf to drink at their own pace, which is essential for their overall health and well-being. The Chuangpu HL-MP51C calf feeding bottle is a reliable and durable product that can withstand the daily wear and tear of farm life. It is easy to clean and maintain, ensuring that it remains hygienic and safe for your young bovine. In summary, the Chuangpu HL-MP51C calf feeding bottle is an essential product for farmers who want to provide the best nourishment for their young bovines. Its leak-proof design, backflow prevention, and milk flow adjustment features make it a reliable and durable product that can be used in a variety of occasions and scenarios.
