Product Description:

This product is also sometimes called the Heifer Bottle Feeding Nipple or the Infant Bovine Feeding Teat. Regardless of the name, it is made from high-quality rubber, which ensures durability and long-lasting use. The rubber material also makes it easy to clean, ensuring that the calf's feeding equipment is always hygienic and safe to use.

The Calf Feeding Nipple is specifically designed for newborn calves, making it an ideal product for farmers who want to ensure that their young stock is fed efficiently and effectively. It is easy to use and can be attached to any calf feeding bottle, making it a versatile product that can be used with a variety of feeding systems.

When using the Calf Feeding Nipple, it is important to ensure that the calf is positioned correctly and that the bottle is held at the right angle. This will ensure that the calf can feed comfortably and efficiently, allowing it to get the nutrition it needs to grow and thrive.

In summary, the Calf Feeding Nipple is a high-quality product that is ideal for use with newborn calves. It is made from durable rubber, is easy to clean, and has an opening on both sides of the top of the nipple, making it easy for the calf to feed. It is suitable for use with calf feeding bottles and is an essential piece of equipment for farmers who want to ensure that their young stock is fed efficiently and effectively.
