Product Description:

One of the key advantages of this nipple is its backflow-proof design. This ensures that milk flows smoothly from the bottle to the calf, without any unwanted backflow. This feature is especially important for the health and well-being of the calf.

Made in China, this high-quality cow calf nursing teat is built to last. Its durable construction ensures that it can withstand the rigors of daily use on the farm. Whether you are a seasoned farmer or just starting out, this nipple is an essential tool for successful calf rearing. Overall, the Calf Feeding Nipple is a reliable and effective tool for young cattle feeding. Its card slot design makes it easy to attach to any heifer bottle, while its backflow-proof design ensures that milk flows smoothly and without interruption. If you are looking for a high-quality, dependable heifer bottle feeding nipple, look no further than the Calf Feeding Nipple.

Features:

Product Name: Calf Feeding Nipple

Size: 102x40mm

Usage	Newborn Calves Feeding
Age Range	Newborn Calves
Milk Outlet	Opening On Both Sides Of The Top Of The Nipple
Size	102x40mm
Nipple Material	Rubber
Advantage	Backflow-proof Design

Applications:

The heifer bottle feeding nipple is perfect for use in dairy farms, providing a quick and easy way to feed newborn calves. This is an essential tool for any farmer raising young calves, ensuring that they receive the right amount of nutrients to promote healthy growth. The newborn bovine feeding nipple is made from high-quality materials, ensuring that it is durable and long-lasting. It is easy to clean and can be used again and again, making it a cost-effective solution for farmers who need to feed newborn calves regularly.

The Calves feeding nipple is designed to fit onto most standard feeding bottles, making it a versatile tool that can be used in a variety of scenarios. It is particularly useful for farmers who need to feed multiple calves at once, as it allows them to quickly and easily switch between bottles.

The black color of the nipple makes it easy to spot in a busy barn or feeding area, ensuring that it is not misplaced or lost. It is also a great option for farmers who want to color-coordinate their equipment, making it easy to identify which nipples are used for calf feeding. Overall, the Chuangpu HL-MP73E Calf Feeding Nipple is a reliable and efficient tool for any farmer looking to feed newborn calves. Its backflow-proof design, durability, and versatility make it an essential item in any dairy farm.
