### Product Description:

The Calf Feeding Nipple is a type of feeding bucket nipple that features a fixed valve, ensuring that milk flows smoothly and easily through the top of the nipple. This design is ideal for use with calf milk feeding, as it ensures that young calves are able to nurse comfortably and efficiently.

Whether you're looking for a replacement nipple for your calf nursing bottle or you're setting up a new feeding system for your herd, the Calf Feeding Nipple is the perfect choice. Made from durable materials and designed to last, this nipple is the perfect combination of quality and value.

So why wait? Order your Calf Feeding Nipple today and experience the convenience and efficiency of a high-quality young cattle feeding teat!

Age Range	Newborn
Material	Rubber
Type	Feeding Bucket Nipple, Valve Fixed Nipple
Suitable For	Calf Milk Feeding
Color	Black
Size	120x47mm
Milkout	Top Of Nipple

### Applications:

The Chuangpu calf feeding nipple is an ideal product for farmers who are looking for a reliable and efficient feeding solution for their calves. Here are some of the product application occasions and scenarios:

**Calves Nursing Bottles:** The Chuangpu calf feeding nipple can be used with nursing bottles to provide a comfortable and natural feeding experience to newborn calves. The slow flow rate ensures that the calves do not experience any discomfort or choking while feeding.

**Feeding Buckets:** The product can also be used with feeding buckets that are used to feed multiple calves at once. The valve fixed vipple ensures that the milk flow is consistent and regulated, providing an even feeding experience to all the calves.

**Juvenile Cow Feeding Teats:** The Chuangpu calf feeding nipple can also be used with juvenile cow feeding teats, which are designed to mimic the natural feeding experience of a cow. The slow flow rate ensures that the calves do not overfeed and experience any discomfort. In conclusion, the Chuangpu calf feeding nipple is a reliable and efficient product that is perfect for feeding newborn calves. The slow flow

rate, valve fixed vipple, and the perfect size make it an ideal product for farmers who are looking for a natural and comfortable feeding experience for their calves. So, if you want to ensure the growth and health of your calves, the Chuangpu calf feeding nipple is the perfect product for you.
