Product Description:

With this calf feeding nipple, you can be confident that your newborn is getting the nutrition it needs to grow and stay healthy. The slow flow design ensures that your calf won't overeat or choke while feeding, and the black color makes it easy to identify and keep track of. Designed for calves in the newborn age range, this infant bovine feeding teat is a must-have for any farmer or rancher. Whether you're feeding a single calf or an entire herd, this calf feeding nipple will make the process easy and stress-free.

Investing in the right feeding equipment is crucial to the health and wellbeing of your young cattle. The Calf Feeding Nipple is a reliable and durable option that will provide your newborn with all the nutrition it needs. Order yours today and see the difference it can make!

Features:

Product Name: Calf Feeding Nipple

Material: Rubber

Age Range: Newborn

Quantity: 1

Suitable For: Calf Milk Feeding

Manufacturer: Chuangpu

Introducing our Cow calf nursing teat, also known as Baby cow nursing nipple, designed for newborn calves. This Calf Feeding Nipple is made of durable rubber material and is suitable for calf milk feeding. Manufactured by Chuangpu, this nipple is a reliable and high-quality solution for your calf feeding needs.

Technical Parameters:

Material:	Rubber
Quantity:	1
Suitable For:	Calf Milk Feeding
Name:	Calf Feeding Nipple
Age Range:	Newborn
Size:	73x38mm
Type:	Feeding Bucket Nipple, Card Slot Fixed Nipple
Milkout:	Top Of Nipple

Color:	Black

Applications:

The nipple measures 73x38mm in size and comes in a quantity of 1. It is made from durable materials that are designed to withstand the tough conditions of the farm environment. The nipple features a card slot fixed design that ensures it stays securely in place during feeding.

The Chuangpu HL-MP77D Calf Feeding Nipple is ideal for a variety of occasions and scenarios. It is perfect for use in dairy farms, livestock ranches, and other facilities that specialize in raising and caring for bovines. The nipple is specifically designed for newborn calves, making it an essential product for farmers and livestock professionals that work with young animals.

The product is easy to use and can be attached to most feeding buckets. It provides a natural feeding experience that mimics the cow calf nursing teat, making it an ideal product for young calves that are still learning to feed. The nipple is also easy to clean and maintain, ensuring that it remains hygienic and safe for prolonged use.

In conclusion, the Chuangpu HL-MP77D Calf Feeding Nipple is an essential product for any farmer or livestock professional that works with newborn bovines. Its durable design, easy-to-use features, and natural feeding experience make it a must-have product for any facility that specializes in raising and caring for young calves.
