Product Description:

This feeding nipple is specifically designed for use with newborn lambs, making it an ideal choice for farmers and ranchers who are looking for a reliable and efficient way to feed their young animals. The nipple is easy to attach to any standard feeding bucket, and it provides a comfortable and natural feeding experience for lambs, pigs, and other young animals.

The Feeding Nipple comes in a bright red color that is easy to spot, even in low light conditions. This makes it an ideal choice for use in barns and other environments where visibility can be an issue. The nipple measures 48x34mm in size, making it a perfect fit for most standard feeding buckets. It is also easy to clean and maintain, ensuring that it can be used over and over again without any issues. This feeding nipple is suitable for use with young goat and sheep milk feeding, as well as other types of milk. It is designed to provide a natural and comfortable feeding experience for young animals, helping to ensure that they receive the nutrients they need to grow and develop properly.

Overall, the Feeding Nipple is an excellent choice for anyone who is looking for a high-quality, reliable, and efficient way to feed their newborn lambs. Whether you are a farmer, rancher, or simply someone who cares for young animals, this feeding nipple is sure to meet your needs and exceed your expectations.

Size:	48x34mm
Flow:	Slow
Color:	Red
Milkout:	Top Of Nipple, Cross Opening
Manufacturer:	Chuangpu
Quantity:	1

This product is a type of baby goat nursing nipple, lamp nursing teat, or young goat feeding teat.

Applications:

The cross opening at the top of the nipple allows for easy milkout, ensuring that your young goat gets the proper nutrition they need. The red color of the nipple is easily visible and helps to prevent misplacement or loss.

The Chuangpu HL-MP77 Feeding Nipple is suitable for a variety of occasions and scenarios. It can be used on farms, ranches, and even in petting zoos.

If you are a farmer or rancher, this product is essential for ensuring the proper health and growth of your young goat. It is also a great tool for petting zoos, as it allows visitors to participate in feeding the animals while also ensuring the animals are receiving the proper nutrition. In summary, the Chuangpu HL-MP77 Feeding Nipple is a high-quality and versatile product that is perfect for infant goat feeding. Its durable rubber material ensures that it will last for multiple feedings, making it a cost-effective option for farmers and ranchers.

The Nipple needs to be better for the baby goat
