

Advanced Digital Temperature Control Baby Cow Feeding Machines With Adjustable Feeding Speed

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-MP70A-1
- Minimum Order Quantity: One Set
- Price: Negotiable
- Packaging Details: Wooden Case
- Delivery Time: 3-5 working days
- Payment Terms: T/T
- Supply Ability: 500SETS/Month

Product Specification

- Speed Stirring Motor: 150W
- Pacifier Material: Rubber
- Feeding Speed: Adjustable
- Pacifier Quantity: 10 Feeding Nipple, 10 Animals Can Suck Milk At One Time
- Temperature Control: Digital, Could Control Temperature Automatically
- Body Type: Round
- Material: Stainless Steel 304, 1.5mm Plate Thickness
- Electric Heating: 150W
- Highlight: **Advanced Baby Cow Feeding Machines, Digital Baby Cow Feeding Machines, Adjustable Baby Cow Feeding Machines**

Product Description:

The Heifer Nutrient Apparatus comes with a digital temperature control system that could automatically regulate temperature. This feature helps to ensure that the milk is at the right temperature before feeding the calf or lamb. The adjustable feeding speed feature allows the farmer to regulate the flow of milk, ensuring that the calf or lamb gets just the right amount of milk at a time.

The Cattle Calf Nourishing Equipment is designed to make calf and lamb feeding easy and stress-free. It is suitable for farmers who want to raise healthy and strong calves and lambs. The mobility feature of this device makes it easy to move from one location to another, making it perfect for farmers who have more than one location for raising their animals.

The Junior Bovine Nurturing Devices is built to last and can withstand harsh conditions. The Stainless Steel 304 material is resistant to rust and corrosion, making it perfect for use in a farm environment. The thickness of the material ensures that the device can withstand any accidental knocks or bumps that may occur during use.

The Heifer Nutrient Apparatus is easy to use and can be operated by anyone. The digital temperature control system takes the guesswork out of feeding, making it easy for even inexperienced farmers to use. The adjustable feeding speed feature allows the farmer to tailor the feeding process to the needs of the calf or lamb.

In summary, the Cattle Calf Nourishing Equipment is a vital tool for any farmer who wants to raise healthy and strong calves and lambs. The Junior Bovine Nurturing Devices is movable, easy to use, and built to last. The digital temperature control system and adjustable feeding speed feature help to ensure that the calf or lamb gets the right amount of milk at the right temperature. The Stainless Steel 304 material ensures durability and longevity, making it an excellent investment for any farmer looking to improve their calf and lamb feeding process.

Features:

Product Name: Calf Feeding Equipment

Machine Volume: 150L

Feeding Speed: Adjustable

Body Type: Round

Power Source: Electric

Pacifier Quantity: 10 Feeding Nipple, 10 Animals Can Suck Milk At One Time

Our Calf Feeding Equipment is the perfect solution for Cow Calf Nutrition Implements, Baby cow Feeding Machines, and Calf Nourishment Packages.

Technical Parameters:

Temperature Control	Digital, Could Control Temperature Automatically
Feeding Speed	Adjustable
Electric Heating	150W
Body Type	Round
Power Source	Electric
Machine Volume	150L
Application	For Cow Calf Nutrition Implements, Juvenile Bovine Feeding Gear, Calf Food Dispensing Machines
Speed Stirring Motor	150W
Movable	Yes
Pacifier Quantity	10 Feeding Nipple, 10 Animals Can Suck Milk At One Time

Applications:

This calf feeding equipment is ideal for farmers who are looking for Veal Cow Sustenance Tools, Cow Calf Nutrition Implements, or Calf Food Dispensing Machines. The machine comes with 10 feeding nipples, which means that up to 10 animals can suck milk at one time. This saves farmers time and money as they do not have to feed each animal separately. The pacifiers are made of high-quality materials that are gentle on the calf's mouth, ensuring that they do not get injured while feeding.

The Chuangpu HL-MP70A-1 calf feeding equipment is perfect for use in a variety of scenarios. Farmers who have a large number of calves or lambs to feed will find this machine to be a great investment. It is also ideal for use in farms where there is a shortage of labor. The machine is easy to use and requires minimal supervision, allowing farmers to focus on other important tasks.

Overall, the Chuangpu HL-MP70A-1 calf feeding equipment is a great choice for farmers who want to save time and money on feeding their animals. Its large capacity, powerful motor, and gentle pacifiers make it a reliable and efficient choice. If you are looking for Veal Cow Sustenance Tools, Cow Calf Nutrition Implements, or Calf Food Dispensing Machines, this product is definitely worth considering.
