

200L Convenient Feeding Movable Baby Cow Feeding Machines With Electric Power Source

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-MP70A-2
- Minimum Order Quantity: One Set
- Price: Negotiable
- Packaging Details: Wooden Case
- Delivery Time: 3-5 working days
- Payment Terms: T/T
- Supply Ability: 500SETS/Month

Product Specification

- Movable: Yes
- Application: For Calf, Lamb Feeding Equipments
- Temperature Control: Digital, Could Control Temperature Automatically
- Machine Volume: 200L
- Feeding Speed: Adjustable
- Body Type: Round
- Speed Stirring Motor: 150W
- Power Source: Electric
- Highlight: **Movable Baby cow Feeding Machines, 200L Baby cow Feeding Machines**

Product Description:

The Electric Heating feature of this feeding machine is another important attribute that makes it one of the best Veal Cow Sustenance Tools out there. With a heating power of 150W, the machine can quickly heat milk replacers to the optimal temperature, ensuring that the calves receive their food in the right condition.

Another important aspect of this Calf Feeding Equipment is its build quality. The machine is made of high-quality Stainless Steel 304, with a plate thickness of 1.5mm, which makes it durable and long-lasting. The material is also easy to clean and maintain, ensuring that the machine remains hygienic and safe for the calves.

The Pacifier Material of this feeding machine is made of high-quality rubber, which is soft and gentle on the calves' mouth. This ensures that the calves are comfortable while feeding and do not experience any discomfort or pain. The pacifier is also easy to clean and maintain, ensuring that it remains hygienic and safe for the calves.

The Calf Feeding Equipment has a machine volume of 200L, which means that it can hold a significant amount of milk replacers and other supplements, reducing the need for frequent refilling. This makes it an efficient and time-saving tool, especially for farms with a large number of calves.

In conclusion, the Calf Feeding Equipment is one of the best Veal Cow Sustenance Tools available in the market. Its efficient Speed Stirring Motor, Electric Heating feature, high-quality Stainless Steel 304 material, soft and gentle Pacifier Material, and large machine volume make it an ideal tool for providing the best possible nutrition to calves and ensuring their healthy growth.

Features:

Product Name: Calf Feeding Equipment

Pacifier Material: Rubber

Movable: Yes

Body Type: Round

Power Source: Electric

Application: For Calf, Lamb Feeding Equipments

Keywords: Cow Calf Nutrition Implements, Young Bull Feeder System, Baby cow Feeding Machines

Technical Parameters:

Machine Volume	200L
Speed Stirring Motor	150W
Movable	Yes
Application	For Calf, Lamb Feeding Equipments
Temperature Control	Digital, Could Control Temperature Automatically
Body Type	Round
Electric Heating	150W
Pacifier Quantity	15 Feeding Nipple, 10 Animals Can Suck Milk At One Time
Power Source	Electric
Feeding Speed	Adjustable

This Heifer Nutrient Apparatus, Cow Calf Nutrition Implements, and Juvenile Bovine Feeding Gear is perfect for feeding calves and lambs.

Applications:

The HL-MP70A-2 model is designed to cater to your young bull feeder system needs while ensuring that your cattle calf receives the right amount of nourishment. With an adjustable feeding speed, this equipment ensures that your calf can consume food at a pace that suits it best. The pacifier material used for this product is rubber, which is safe for your calf and ensures that it is comfortable while feeding.

This Cattle Calf Nourishing Equipment is designed to meet the needs of modern farmers who are looking to improve the quality of their

cattle's nourishment. With a 150W electric heating feature, this equipment ensures that the milk is at the right temperature for your calf's consumption. Additionally, the speed stirring motor, also 150W, ensures that the milk is well mixed, making it easier for your calf to digest. The Chuangpu HL-MP70A-2 Calf Feeding Equipment is made in China, using only the highest quality materials. Its durability and high-performance make it perfect for use in various scenarios such as dairy farms, cattle ranches, and other livestock production settings. This equipment is easy to operate and maintain, ensuring that you get the most out of your investment. In conclusion, if you are looking for a reliable, durable, and high-performing calf feeding equipment, Chuangpu HL-MP70A-2 Calf Feeding Equipment is the perfect solution for you. Its exceptional features and performance make it suitable for various occasions and scenarios such as dairy farms, cattle ranches, and other livestock production settings.
