Product Description:

The Rumen Iron Taker comes with three components that make it easy to use and effective. The Mouth Opener is designed to keep the cow's mouth open while administering the treatment. The Magnetic Head Set is used to attract and remove iron nails from the cow's stomach. Finally, the SS Push Rod is used to gently apply pressure and ensure that the iron nails are fully removed.

The Rumen Iron Taker is specifically designed for cattle, as they require a significant amount of iron in their diet. Without enough iron, cows cannot absorb enough nutrients from their food, leading to a variety of health problems. As a Food Iron Receiver, it is important to ensure that your cattle receive the proper amount of iron, and the Rumen Iron Taker is the perfect solution.

The Rumen Iron Taker has a powerful adsorption force of 8KG, making it easy to remove even the smallest iron nails from the cow's stomach. As an Organ Iron Assimilator, the Rumen Iron Taker ensures that the cow's body can properly absorb and use the iron it needs to maintain optimal health.

Using the Rumen Iron Taker is simple and straightforward. To remove the iron nails from the cow's stomach, simply insert the Magnetic Head Set into the cow's mouth and guide it towards the stomach. Once the Magnetic Head Set has attracted the iron nails, gently remove it from the cow's stomach using the SS Push Rod. With regular use, the Rumen Iron Taker can help keep your cattle healthy and thriving.

Features:

Product Name: Rumen Iron Taker

Adsorption Force: 8KG

Components: Mouth Opener, Magnetic Head Set, SS Push Rod

Usage: Remove The Iron Nails From The Cow's Stomach.

Certifications: FDA Approved

Warranty: 1 Year

The Rumen Iron Taker is an Organ Iron Assimilator, also known as a Rumen Iron Carrier.

Technical Parameters:

Components	Mouth Opener, Magnetic Head Set, SS Push Rod
Why take iron?	More Iron In Cow Stomach Will Affect Appetite, Weight Loss, Lower Milk Production, Also Punctured Internal Organs, Life-threatening

Applications:

The Rumen Iron Taker is a Stomach Iron Absorber that ensures that more iron is gathered in the cow's stomach. This helps in improving appetite, avoiding weight loss, increasing milk production, and preventing punctured internal organs that can be life-threatening. The

product includes a Mouth Opener, Magnetic Head Set, and SS Push Rod, which helps farmers in the application of the Rumen Iron Taker.

The Chuangpu HL-Q12-II Rumen Iron Taker is perfect for farmers who are looking for a reliable product that helps in the ingestion of iron in their cattle. The product has a 1-year warranty, giving customers assurance of its quality and durability. It is manufactured in China, making it accessible and affordable for farmers who want to invest in the health and productivity of their cattle.

The Rumen Iron Taker is an Ingested Iron Gatherer that can be used in various occasions and scenarios. It is perfect for farmers who want to improve the overall health and productivity of their cattle. The product can be used during the breeding season or when the cattle are experiencing low milk production. It can also be used when the cattle are showing signs of weight loss or lack of appetite.

In conclusion, Chuangpu HL-Q12-II Rumen Iron Taker is a reliable and efficient product that helps in the ingestion of iron in cattle. Its components, including the Mouth Opener, Magnetic Head Set, and SS Push Rod, make it easy for farmers to apply the product. The Rumen Iron Acceptor is perfect for farmers who want to maintain the health and productivity of their cattle. It is a must-have tool for every farmer who wants to ensure the well-being of their cattle.
