

## 3M FDA Approved Cattle Rumen Iron Taker Magnetic Nail Extractor

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

### Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-Q12-III
- Minimum Order Quantity: One Set
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T
- Supply Ability: 500SETS/Month

### Product Specification

- Certifications: FDA Approved
- Usage: Remove The Iron Nails From The Cow's Stomach.
- Parts Contain: 3M
- Target Animal: Cattle
- Manufacturing Country: China
- Adsorption Force: 20KG
- Components: Mouth Opener, Magnetic Head Set, SS Push Rod
- Why Take Iron?: More Iron In Cow Stomach Will Affect Appetite, Weight Loss, Lower Milk Production, Also Punctured Internal Organs, Life-threatening.
- Highlight: **3M Rumen Iron Taker,**

### Product Description:

Why take iron? Iron is an essential mineral that is necessary for the proper functioning of the body. In cows, iron plays a critical role in the production of hemoglobin, which is responsible for carrying oxygen throughout the body. Without enough iron, cows can experience a range of negative health effects, including a decreased appetite, weight loss, and lower milk production.

The Rumen Iron Taker is FDA approved and contains 3M parts, ensuring its high-quality and durability. Made in China, this organ iron assimilator has been designed to effectively and efficiently collect iron in the cow's stomach, helping to prevent a range of serious health issues.

### Features:

Product Name: Rumen Iron Taker

Target Animal: Cattle

Adsorption Force: 20KG

Parts Contain: 3M

Components:

Mouth Opener

Magnetic Head Set

SS Push Rod

Why take iron?: More Iron In Cow Stomach Will Affect Appetite, Weight Loss, Lower Milk Production, Also Punctured Internal Organs, Life-threatening.

Organ Iron Assimilator

Intestinal Iron Collector

Rumen Iron Acceptor

### Technical Parameters:

Parts Contain:	3M
Target Animal:	Cattle
Manufacturing Country:	China
Adsorption Force:	20KG
Components:	Mouth Opener, Magnetic Head Set, SS Push Rod
Usage:	Remove The Iron Nails From The Cow's Stomach
Warranty:	1 Year
Why take iron?:	More Iron In Cow Stomach Will Affect Appetite, Weight Loss, Lower Milk Production, Also Punctured Internal Organs, Life-threatening
Certifications:	FDA Approved

### Applications:

The Rumen Iron Taker is suitable for use in a variety of occasions and scenarios, including farms, livestock ranches, and animal husbandry facilities. This product is especially useful for animals that have difficulty absorbing iron from their food, such as those with digestive disorders or certain breeds that are prone to iron deficiencies. The magnetic head set provides strong adsorption force of up to 20KG, allowing the Rumen Iron Taker to effectively target the rumen, where the majority of iron absorption takes place. Using the Rumen Iron Taker is simple and straightforward. The mouth opener is inserted into the animal's mouth, while the magnetic

head set is positioned over the rumen area. The SS push rod is then used to gently guide the Rumen Iron Taker into place. Once in position, the product can be activated to start absorbing iron from the animal's food, making it a quick and easy way to ensure optimal nutritional iron uptake.

The Rumen Iron Taker is covered by a 1-year warranty, providing peace of mind for animal owners and operators. Overall, this product is an excellent choice for anyone looking to improve their animal's iron absorption and overall health. Whether you are raising livestock for meat or dairy production, or simply want your pets to be as healthy as possible, the Rumen Iron Taker is a reliable and effective nutri

# INSTRUCTIONS

WE ALWAYS ADHERE TO RIGOROUS MANAGEMENT, THE FOUNDATION OF METICULOUS MANUFACTURING,  
PRODUCE PRODUCTS THAT MEET THE MARKET'S RULES AND CUSTOMER NEEDS

Before use, please use a metal detector to detect whether there is metal in the stomach of the cow. Open the cow's mouth, put the retainer into the cow's mouth (the square hole is outside), and fix the fixing belt on the back of the two horns of the cow. Then put the magnetic head of the feeder with the lead-out rope into the stomach of the cow through the square hole of the holder, hold the feeder with one hand and the lead-out rope with the other hand, just gently tighten the lead-out rope together with the feeder when taking it out. Take out and finally remove the retainer.
