### Product Description:

Measuring at 36.5cm in length, this forcep is made of high-quality stainless steel. The silver color gives it a sleek and professional look, making it perfect for use in any veterinary clinic or farm.

The Bull Nose Forcep is specifically designed with a bull nose in mind. It is perfect for clipping the nose of a bull to facilitate other operations such as tagging, tattooing, and dehorning. The forcep design allows for a secure grip on the nose of the animal, making it easier to handle and reducing the risk of injury to both the animal and the handler.

Using the Bull Nose Forcep is easy and straightforward. Simply place the forcep around the nose of the animal and gently squeeze the handles together to clip the nose. The forcep is designed to be gentle and minimize any discomfort to the animal.

Overall, the Bull Nose Forcep is an essential tool for anyone who deals with cows on a regular basis. Its high-quality construction and design make it a reliable and durable tool that will last for years to come.

### Features:

Product Name: Bull Nose Forcep

Rust Resistance: Yes

Length: 36.5cm

Application: Bull Nose

Usage: Clip The Nose Of The Cow To Facilitate Other Operations

Country Of Origin: China

Introducing our Bull Nose Forcep, also known as Bull-nose pliers or Bull-nose clamps. These forceps are rust-resistant and have a length of 36.5cm, making them perfect for clipping the nose of the cow to facilitate other operations. Made in China, these forceps are reliable and durable.

### Technical Parameters:

Type	Straight
Manufacturer	Chuangpu
Application	Bull Nose Forcep/Bull-nose hemostats/Bull-nose locking forceps
Rust Resistance	Yes
Weight	0.92KG
Color	Silver
Tip Shape	Ball Head
Package Quantity	1
Country Of Origin	China
Material	Carbon Steel

### Applications:

The Bull Nose Forcep is designed for precise and delicate surgical procedures where a strong grip on tissues is required. The forceps have a bull-nose tip that allows for a precise and firm grip on tissues, making it ideal for use in surgeries that require careful handling of delicate tissues.

The Chuangpu HL-Q3 Bull Nose Forcep is suitable for use in various surgical procedures such as microsurgery, neurosurgery, gynecology, and other fields of medical practice. The bull-nose tweezers are particularly useful in cardiac surgeries where the surgeon needs to clamp the arteries to stop the blood flow.

The Bull-nose artery forceps are also useful in orthopedic surgeries where the surgeon needs to hold and manipulate small bones and tissues. Additionally, the straight design of the Bull Nose Forcep makes it easy to access hard-to-reach areas during surgical procedures, which is crucial for successful surgeries.

The Chuangpu HL-Q3 Bull Nose Forcep is an essential tool for surgeons who need to manipulate delicate tissues with precision and

accuracy. With its bull-nose tip, the forcep provides a strong grip on tissues, ensuring minimal damage during surgical procedures. Therefore, the Bull Nose Forcep is indispensable in the hands of a skilled surgeon.

## PRODUCT INTRODUCTION

### Style 1

Product name: long handle bull nose pliers

Item model number: HL-Q3

Features:

- 1.Using high-quality carbon steel, it can be used for a long time without rusting.
- 2.The left and right jaws are spherical, which will not cause damage to cattle.
- 3.The long handle design is convenient for traction and easy to use.

## PRODUCT PARAMETERS

maximum opening 7.5cm

Weight: 0.92kg
