

Rust Resistant Balling Gun 38mm Barrel Diameter For Long Lasting Performance

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-Q11A
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T
- Supply Ability: 5000PCS /Month

Product Specification

- Durability: Rust-resistant
- Material: Stainless Steel
- Usage: Oral Administration Of Medication And Magnet
- Weight: 0.95kg
- Type: Press Type
- Barrel Diameter: 38mm
- Length: 710mm
- Color: Silver
- Highlight: **38mm Barrel Diameter Balling Gun, Rust-resistant Balling Gun, Long-lasting Performance Balling Gun**

Product Description:

The Balling Gun features a barrel length of 140mm, making it an ideal choice for oral administration of medication and magnets. The device is designed to be used with a bead propelling device, also known as a sphere loading device, which allows for easy insertion of medication and magnets into the gun. Once loaded, the Balling Gun acts as a projectilizing gun, propelling the medication or magnet into the animal's mouth quickly and efficiently.

One of the key benefits of the Balling Gun is its ability to be used with a magnetic cage and calcium bar. This makes it an excellent choice for administering medication and magnets to animals that are difficult to handle or have specific dietary requirements. The Balling Gun's design allows for precise placement of medication and magnets, ensuring that your animals receive the appropriate dosage and treatment.

Whether you are a veterinarian, animal breeder, or livestock farmer, the Balling Gun is an essential tool for administering medication and magnets to your animals. Its sturdy construction and user-friendly design make it a reliable and efficient choice for any animal care situation. So why wait? Invest in the Balling Gun today and experience the benefits of this innovative tool for yourself!

Features:

Product Name: Balling Gun
Application: Put In Magnetic Cage And Calcium Bar
Type: Press Type
Material: Stainless Steel
Balling Gun Features:
Spherical Barrel Launcher
Bead Propelling Device
Barrel Diameter: 38mm

Technical Parameters:

Weight	0.95kg
Application	Put In Magnetic Cage And Calcium Bar
Usage	Oral Administration Of Medication And Magnet
Name	Balling Gun
Easy To Use	Single-handed Operation
Type	Press Type
Length	710mm
Material	Stainless Steel
Durability	Rust-resistant
Color	Silver

Applications:

The Balling Gun is commonly used in various veterinary clinics, animal hospitals, and livestock farms. It is an effective tool for administering medication to animals, specifically large animals such as horses, cows, and sheep. Veterinarians and animal caretakers use the balling gun to administer medication orally, either by inserting a pill or capsule into the gun or by mixing powdered medication with water to form a slurry.

The Chuangpu HL-Q11A Balling Gun is especially useful for administering medication to animals that are difficult to handle. It allows for precise and accurate dosing of medication, reducing the risk of under or overdosing. In addition, the gun's design ensures that the medication is delivered directly to the animal's stomach, ensuring maximum effectiveness.

The Balling Gun is also an essential tool for administering calcium supplements to animals, particularly dairy cows. Calcium deficiency is a

common problem in dairy cows and can lead to a range of health issues, including milk fever. The Balling Gun allows for easy administration of calcium supplements, ensuring that cows receive the necessary nutrients to maintain their health and productivity. Overall, the Chuangpu HL-Q11A Balling Gun is a versatile and essential tool for animal care professionals. Its high-quality construction and precise dosing capabilities make it a reliable choice for administering medication and supplements to large animals. Whether you work in a veterinary clinic or on a livestock farm, the Balling Gun is an indispensable part of your toolkit.

PRODUCT PARAMETER

IT CAN BE USED TO ADMINISTER MEDICINE TO ANIMALS WHEN THEY ARE SICK, AND CAN ALSO BE USED WITH MAGNETIC CAGES.

Name Pill Propellant Gun	Material High quality 304 stainless steel
Inner Dia 3.9cm	Outer Dia 4.2cm
Weight 0.95KG	Suitable Pigs, cattle, sheep...

QUALITY OF DETAILS
