Product Description:

The Balling Gun is a round projectile dispenser that is designed to make it easier to administer medicine or supplements to your animals. It is also commonly known as a pellet dispensing gun. The design of the Balling Gun allows for easy loading of medication or supplements and ensures that they are delivered directly to the target area.

The Balling Gun is perfect for anyone who needs to give medication or supplements to their animals on a regular basis. It is easy to use and can be operated with just one hand. The stainless steel construction ensures that it is durable and long-lasting, even with frequent use.

Whether you are a farmer, a veterinarian, or just a pet owner, the Balling Gun is an essential tool that you will use time and time again. It is the perfect solution for administering medication or supplements to your animals quickly and easily.

Features:

Product Name: Balling Gun

Usage: Oral Administration Of Medication And Magnet

Easy To Use: Single-handed Operation

Length: 710mm

Color: Silver

Type: Press Type

The Balling Gun, also known as the Orb-Shooting Apparatus or Sphere Loading Device, is a product designed for easy and single-handed oral administration of medication and magnet to animals. Its length is 710mm and it comes in a sleek silver color. Its press type design makes it easy to use.

Technical Parameters:

Material	Stainless Steel
Color	Silver
Usage	Oral Administration Of Medication And Magnet
Barrel Length	140mm
Barrel Diameter	38mm
Weight	0.95kg
Durability	Rust-resistant
Easy To Use	Single-handed Operation
Type	Press Type
Length	710mm

Applications:

One of the most common applications for the Balling Gun is in the veterinary industry. This product is ideal for administering pills or other medications to animals, especially those that are difficult to handle or have a tendency to spit out medication. With a length of 710mm and a barrel length of 140mm, the Chuangpu Balling Gun is easy to use and provides a more accurate delivery method than traditional methods.

Another application for the Balling Gun is in the field of magnet therapy. Magnets are often used to treat a variety of ailments, and the Balling Gun is an excellent way to administer them orally. The stainless steel construction of the Balling Gun ensures that it is durable and easy to sanitize, making it a great choice for use in clinical settings.

The Chuangpu Balling Gun is made in China and features high-quality materials and construction. The spherical barrel launcher design ensures that medication or magnets are delivered accurately and efficiently, and the product is easy to use even for those who are not experienced in administering medication or using orb-shooting apparatuses.

In summary, the Chuangpu HL-Q11A Balling Gun is a versatile and reliable tool that can be used in a variety of scenarios. Whether you

are a veterinarian looking for a better way to administer medication to animals or a clinician interested in the benefits of magnet therapy, the Balling Gun is an excellent choice.

DON'T LET THESE PROBLEMS CONTINUE TO BOTHER YOU

IT CAN BE USED TO ADMINISTER MEDICINE TO ANIMALS WHEN THEY ARE SICK, AND CAN ALSO BE USED WITH MAGNETIC CAGES.
