

Find Metals Easily Rumen Metal Finder 12cm Diameter Waterproof Search Coil No Sensitivity Adjustment Needed

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-Q12D-1
- Minimum Order Quantity: One Set
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T
- Supply Ability: 500SETS/Month

Product Specification

- Sensitivity: Do Not Need Adjust
- Working Environment: -20 -60
- Detection Depth: 5-30cm
- Battery Type: 9V Alkaline
- Detection Method: Electromagnetic Induction
- Usage: Metal Detection
- Length: 42cm
- Feature: 12cm Diameter Waterproof Search Coil.
- Highlight: **Rumen Metal Finder, Waterproof Search Coil Metal Finder, 12cm Diameter Metal Finder**

Product Description:

The Rumen Metal Detector is designed to work in a wide range of environments, with a working temperature range of -20 -60 . It is powered by a 9V alkaline battery, making it easy to replace the battery when needed. With a length of 42cm, this metal detector is easy to handle and maneuver, making it a great choice for professionals who need to scan large numbers of animals quickly.

One of the key features of the Rumen Metal Detector is its detection depth, which ranges from 5-30cm. This means that it can detect metal objects that are buried deep within an animal's digestive system, ensuring that no harmful objects are missed during a scan.

The Rumen Metal Detector also features a 12cm diameter waterproof search coil, which means that it can be used in wet or damp environments without fear of damage. This makes it an ideal choice for those who work in areas where moisture is a concern, such as farms or ranches with high humidity levels.

Overall, the Rumen Metal Detector is a reliable and effective intestine metal scanning device that can help farmers and ranchers ensure the health and well-being of their livestock. With its powerful detection capabilities and durable design, this gut metal detector is a must-have tool for anyone in the livestock industry.

Features:

Product Name: Rumen Metal Detector

Battery Type: 9V Alkaline

Usage: Metal Detection

Detection Modes: Audio And Vibration, Audio, Vibration

Waterproof grade: 5 M Waterproof, IP68 Rating

Warranty: 2 Years

Looking for a reliable **Rumen Metal Finder** , **Ruminant Metal Tracer** , or **Cattle Internal Metal Sensor** ? Our Rumen Metal Detector product offers multiple detection modes and a waterproof design, powered by a 9V alkaline battery and backed by a 2-year warranty.

Technical Parameters:

Lcd Display	Yes
Detection Depth	5-30cm
Working Environment	-20 -60
Usage	Metal Detection
Sensitivity	Do Not Need Adjust
Battery Type	9V Alkaline
Feature	12cm Diameter Waterproof Search Coil
Detection Method	Electromagnetic Induction
Detection Modes	Audio and Vibration, Audio, Vibration
Waterproof grade	5 M Waterproof, IP68 Rating

Applications:

The Chuangpu HL-Q12D-1 Rumen Metal Detector is specifically designed for use in detecting metal objects in the digestive system of cows and other livestock. It is an ideal tool for veterinarians and livestock farmers who need to ensure the safety and well-being of their animals. The metal detector can be used to locate and track metallic objects that may have been ingested by the animal, which can help prevent serious health problems and even death. This cow abdominal metal detector is the perfect solution for farmers who want to ensure the safety and health of their livestock.

The Chuangpu HL-Q12D-1 Rumen Metal Detector can be used in a variety of livestock metallic object tracker scenarios. For example, it can be used to locate metal objects that may have been accidentally left in the animal's feed or water supply. It can also be used to detect metal objects that may have been ingested by the animal while grazing in a field. The metal detector is designed to work in a wide range of working environments, from temperatures as low as -20 to as high as 60 . This means that it can be used in almost any agricultural or livestock setting.

Style:HL-Q12D

WE ALWAYS ADHERE TO RIGOROUS MANAGEMENT, THE FOUNDATION OF METICULOUS MANUFACTURING,PRODUCE PRODUCTS THAT MEET THEMARKET'S RULES AND CUSTOMER NEEDS

Product name: Cow stomach metal detector

Product size: length 42CM

Product weight: net weight 373G/gross weight 564G

Use: Mainly used for metal detection in cattle stomach

Product features:

- 1.LCD Screen display battery power and signal level
- 2.Around 8cm long range detecting for RMB one Yuan coin.
- 3.Three selected modes:Audio and Vibration(Default), Audio, Vibration.
- 4.Diameter 12cm waterproof search coil.
- 5.Professional wrist strap
