Product Description:

The Animal Capture Tool, model HL-Q16A, is a high-quality and reliable Wildlife Entrapment Tool designed for wildlife management professionals and enthusiasts. This Critter Grabbing Apparatus is an essential tool for safely capturing and handling animals in various wildlife management scenarios.

Constructed from durable stainless steel, this Animal Capture Tool is built to withstand the demands of capturing wildlife effectively and efficiently. The sturdy material ensures long-lasting performance and reliability, making it a valuable addition to any wildlife management toolkit.

Safety is paramount when working with animals, which is why the Animal Capture Tool features rubber tips on the gripping end to provide a secure and gentle hold on the captured animal. The rubber tips help prevent injury to both the handler and the animal, ensuring a safe and humane capture process.

In addition to the rubber tips, this Wildlife Entrapment Tool is equipped with a locking mechanism that allows users to securely hold captured animals in place. The locking mechanism provides added safety and control during transport and handling, giving users peace of mind when working with potentially dangerous or unpredictable wildlife.

The sleek silver color of the Animal Capture Tool not only adds a professional touch to the device but also increases visibility in outdoor environments. The silver finish makes it easy to locate the tool in various lighting conditions, enhancing efficiency during wildlife capture operations.

Whether you are a wildlife management professional, researcher, or wildlife enthusiast, the Animal Capture Tool is a versatile and essential tool for safely and effectively capturing and handling animals. Its durable stainless steel construction, rubber tips, locking mechanism, and silver color make it a standout choice for wildlife management applications.

Features:

Product Name: Animal Capture Tool

Application: Wildlife Management

Usage: Animal Capture

Color: Silver

Size: Adjustable

Material: Stainless Steel

Technical Parameters:

Features	Spring-loaded Trigger, Non-slip Handle, Quick Release Mechanism
Safety Features	Rubber Tips, Locking Mechanism
Compatibility	Small To Medium-sized Animals
Application	Wildlife Management
Usage	Animal Capture
Color	Silver
Model	HL-Q16A
Function	Capture And Hold Animals
Durability	Rust-resistant, Durable Construction
Material	Stainless Steel

Applications:

The Chuangpu HL-Q16A Animal Capture Tool is a versatile device designed for capturing and holding animals in various scenarios. With a weight of 1.1kg, this critter grabbing apparatus is lightweight and easy to carry, making it ideal for wildlife management applications. Originating from China, this beast apprehension instrument is crafted with precision and durability in mind. The silver color of the tool not only adds a sleek look but also ensures visibility in outdoor environments.

Whether used in a zoo, wildlife sanctuary, or research facility, the Chuangpu HL-Q16A Animal Capture Tool excels in its function of capturing and holding animals securely. Its zoological incarceration device design allows for safe and humane handling of various species.

Wildlife management professionals will find this tool invaluable for handling situations that require the capture and relocation of animals. From rescuing injured wildlife to conducting research studies, the Chuangpu HL-Q16A provides a reliable solution for a range of animal capture scenarios.

With its sturdy construction and user-friendly design, this animal capture tool offers a practical and efficient way to manage wildlife populations and address human-wildlife conflicts. Trust the Chuangpu HL-Q16A to deliver exceptional performance in the field, ensuring the safety of both animals and handlers.
